LIQUID MSM HERBICIDE

- For use on Kentucky Bluegrass, Fine Fescue, Bermudagrass, Centipede grass, Zoysiagrass and St. Augustinegrass
- Controls weeds from entire lawn unlike spot treatment sprays
- Apply in the spring, summer or fall, anytime weeds are actively growing
- Dual action works through the leaves and roots of the weeds, leaving your lawn unharmed

ACTIVE INGREDIENT:

Metsulfuron methyl: 25.0%
Methyl 2-[[[[(4-methoxy 6-methyl-1,3,5-triazin-2yl) amino]carbonyl]amino]sulfonyl]benzoate

OTHER INGREDIENTS: 75.0%

TOTAL: 100.0%

This product contains 2.15 pounds of metsulfuron-methyl per gallon.

WEED KILLER FOR LAWNS

Liquid MSM Herbicide

KEEP OUT OF REACH OF CHILDREN

CAUTION

FIRST AID	
If on skin or clothing:	• Take off contaminated clothing. • Rinse skin immediately with plenty of water for 15-20 minutes. • Call a poison control center or doctor for treatment advice.
If in eyes:	• Hold eye open and rinse slowly and gently with water for 15 20 minutes. • Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. • Call a poison control center or doctor for treatment advice.
HOT LINE NUMBER	
Have the product container or label with you when calling a poison control center or doctor, or going for treatment. For information on this product, contact the National Pesticide Information Center, 1-800-858-7378, Monday-Friday, 7:30 AM-3:30 PM PST. You may also contact the National Poison Control Center, 1-800-222-1222, day or night, for emergency medical treatment information or SafetyCall® at (866) 897-8050. FOR CHEMICAL EMERGENCY: Spill, leak, fire, exposure, or accident call CHEMTREC 1-800-424-9300.	

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

Causes moderate eye irritation. Avoid contact with skin, eyes or clothing. Avoid breathing spray mist. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet.

ENVIRONMENTAL HAZARDS

To protect the environment, do not allow pesticide to enter or run-off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area. Rinsing application equipment over the treated area will help avoid run off to water bodies or drainage systems.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

USE RESTRICTIONS

- Do not allow children or pets to contact treated areas until sprays have dried.
- Do not use on vegetable gardens.
- Do not apply where roots of desirable trees may extend into the treated zone.
- Do not over saturate the lawn. Over-saturation can cause burn-spots on the lawn.

WHERE TO USE

TopShot™ Weed Killer for Lawns is for use only on Kentucky Bluegrass, Fine Fescue, Bermudagrass, Centipede grass, Zoysiagrass (Meyers and Emerald) and St. Augustinegrass turf areas.

HOW TO APPLY

Determine the area of lawn you want to treat by measuring the width and length in feet. Multiply the width by the length to determine the area in square feet. Examples are shown in the table and diagram below.

LAWN SIZE = WIDTH x LENGTH
2,500 sq. ft. = 50 feet x 50 feet
5,000 sq. ft. = 100 feet x 50 feet

For areas less than 2,500 square feet, only one ampule (0.06 fl. oz.) [1.8 mL] is needed. For areas greater than 2,500 square feet, two ampules (0.12 fl. oz.) [3.6 mL] will be needed for proper treatment.

Ampule Opening Instructions

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

PESTICIDE STORAGE: Store product in original container only. Store in cool, dry place.

PESTICIDE DISPOSAL: Wastes resulting from the use of this product must be disposed of on site or at an approved waste facility.

CONTAINER HANDLING: Nonrefillable container. Do not reuse or refill this container. Completely empty ampule into application equipment. If recycling option is not available, discard in the trash or call your local solid waste agency for disposal instructions.

Adjustable Rate Hose-End Sprayer

TopShot™ Weed Killer for Lawns can be used in adjustable rate ready-to-spray hose-end sprayers that have at least a 16 ounce capacity. For proper coverage, apply enough product through the sprayer to wet the top of the lawn. Do not over-saturate, or attempt to water the roots of the weeds. Simply wet the top of the lawn, and let TopShot™ Weed Killer for Lawns do the work.

When connecting any chemical dispensing device to your home water supply make sure that the sprayer has a built in back flow preventer or make sure there is a back flow preventer on your faucet.

Mixing Instructions

1. Make sure water faucet to garden hose is off.
2. Attach hose-end sprayer to garden hose.
3. Adjust the metering dial to 1-1/2 ounces per gallon.
4. Remove bottle from hose-end nozzle apparatus.
5. Squeeze the entire contents of one ampule (1.8mL) of TopShot™ Weed Killer for Lawns into the bottle and then add 16 ounces of water.
6. Reattach bottle to hose-end sprayer nozzle apparatus.
7. Ensure the hose-end sprayer nozzle apparatus is in the "OFF" position, or if trigger activated: make sure the trigger is not pressed.
8. Shake well before spraying to ensure that the contents are well mixed.

Spraying Instructions

1. Measure off 2,500 square feet of lawn. Example: 25' x 100' or 50' x 50', approximately half the size of a basketball court.
2. Turn on water faucet to garden hose.
3. Aim hose-end sprayer at lawn and spray entire 2,500 square feet of lawn.
4. When applying, simply wet the top of the turf, and let TopShot™ Weed Killer for Lawns do the work.
5. It should take less than 5 minutes to treat all 2,500 square feet and use up all 16 ounces of mixture in the bottle.
6. Repeat mixing and spraying instructions to treat an additional 2,500 square feet of lawn with second ampule of TopShot™ Weed Killer for Lawns.

Hose-End Sprayer Cleaning

1. Fill the jar to full capacity with clean water.
2. Spray previously treated area until bottle is empty. Do not rinse bottle and pour onto ground.

Only use sprayers dedicated to herbicide use.

Handheld Pump-Up Pressure Sprayer

If you prefer you may use a handheld pump-up pressure sprayer with a capacity of 1 to 3 gallons.

Mixing Instructions:

1. Remove the top of pump-up sprayer to allow filling.
2. Squeeze the entire contents of one ampule (1.8 mL) of TopShot™ Weed Killer for Lawns into the sprayer container.
3. Fill the sprayer with water to capacity.
4. Reattach the top of the pump-up sprayer to contain the contents.
5. Shake well before spraying.

Spraying Instructions

1. Measure off 2,500 square feet of lawn. Example: 25' x 100' or 50' x 50', approximately half the size of a basketball court.
2. Pump up spray to manufacturer recommended pressure.
3. Aim pump-up sprayer at lawn and spray entire 2,500 square feet of lawn.
4. When applying, simply wet the top of the turf, and let TopShot™ Weed Killer for Lawns do the work.
5. Repeat mixing and spraying instructions to treat an additional 2,500 square feet of lawn with second ampule of TopShot™ Weed Killer for Lawns.

Pump-Up Sprayer Cleaning

1. Add one half gallon of water to sprayer.
2. Pump up sprayer and spray previously treated area until tank is empty. Do not rinse bottle and pour onto ground.

Only use sprayers dedicated to herbicide use.
