

Compact & Durable Mouse Bait Station

The MBS¹® is the ideal multifunctional bait station for use in tight spaces. Compact in size, its large internal area includes a metal rod to skewer soft and block baits. Optional baiting tray for insects makes it the versatile and dependable choice for LEED-certified buildings. 100% American made.

1

Compact, durable design.

2

Raised lip around the front of the station deters unwanted entry.

3

Smooth design and drainage holes prevent mold growth or insect harborage.

4

Large bait area accommodates most block baits and multiple pieces of soft bait.

5

Comes standard with metal rod to skewer soft bait or secure block baits into the station.

6

Ideal for putting insect bait stations into LEED-certified structures.

7

Uses VM Products' universal key.

8

Service label included.
