

DIRECTIONS: FOR USE ON HORSES AND PONIES

Shake well before use. Turn the nozzle on the sprayer to desired stream. Spray Corona Detangler & Shine on one section of hair at a time and brush in the direction of hair growth. For severely matted manes and tails, apply Corona Detangler & Shine to one area first and then work through tangles with fingers. Allow the hair to dry for additional grooming. For best results, use with Corona Concentrated Shampoo.
