

Easy Installation

Properly Measuring Your Mattress and Box Spring

It's our goal at Mattress Safe® to provide superior excellence in "The Customer Experience." Choosing and installing the correct size cover from Mattress Safe's® ever-growing selection has never been easier!

Determine the Size of the Mattress and Box Spring

Determine the Height

- Using a tape measure, determine the height, in inches, of the mattress.
- To measure the height of the mattress, measure from the bottom where it rests on the box spring to the top of the mattress including any pillow top.
- Repeat for the box spring.

Determine the Length

- Measure the length, in inches, from the head of the mattress to the foot of the mattress.
- Repeat for the box spring.

Determine the Width

- Measure the width, in inches, of the mattress from side to side.
- Repeat for the box spring.

Testing Results

Effectiveness of Mattress Safe® Products in the Prevention of Bed Bug Damage

The fabric "feed through" method was used to evaluate if bed bugs (*Cimex lectularius*) could penetrate and feed through the fabric when a human host was present. The results prove that no bed bugs fed through the laminated fabric, the zipper enclosure, or the zipper seams during the evaluation. The zipper closure also prevented bed bugs from escaping during the study and prevented debris from passing through the zipper.

Table 1: Fabric Feed Through Method: Laminated Fabric				
Bed Bug Stage	Approx #	# Fed	# Escaped	# Blood Spots on Fabric
Mixed	~ 500	0	0	0

BED BUG PROTECTION

Specially Designed Mattress Protectors

**BED BUG CERTIFIED • BREATHABLE • NON-ALLERGENIC
FIRE RETARDANT • WATERPROOF**

The Mattress Safe® Advantage

Quality You Can Trust...Service You Deserve™

Mattress Safe® mattress and box spring encasements should be the first line of defense for protection against bed bug infestations. Made with a durable yet luxurious fabric that is soft to the touch, our bed bug certified encasements offer a variety of advantages:

- **OUR PATENTED "ZIPPER WITH THE HOOK"® : LOOP AND ZIP-TIE LOCKING SYSTEM**- U.S. PATENT #7,849,543
Built directly into our product, the "Zipper with the Hook"® secures the tight closure of the zipper sealing items against bed bugs and dust mites. In addition, we have sewn the tunnel off at the zipper end-stop to ensure that mature bed bugs, nor their instars, cannot escape from or penetrate into the encasement. Sewn in Loop and Zip-Tie included to ensure tamperproof encasements.
- **PROTECTS AND RECOVERS THE EXPENSIVE INVESTMENT IN BEDDING** - A minimal investment in our mattress encasements can prevent the loss in the heavy cost to replace the mattress and box spring.
- **ADDRESSES EARLY DETECTION OF INFESTATION** - Applying our mattress and box spring encasements before any signs of bed bug infestation, will minimize the available areas for nesting as well as provide the means for an easy detection of bed bugs.
- **PREVENTS INITIAL INFESTATION IN MATTRESS AND BOX SPRINGS** - 70% of bed bugs harbor in the mattress, headboard, and infrastructure of the box spring. If there is an infestation, our encasement eliminates the opportunity for bed bugs to find a home in the mattress or box spring. (Bed Bug Hiding Spots, Pg.3)
- **STOPS THE SPREADING OF BED BUGS** - When trapped inside our encasement, bed bugs and hatchlings are subjected to starvation and prevented from escaping and multiplying throughout the room.
- **BITE PROOF** - Bed bugs cannot bite through the laminated fabric of our mattress and pillow encasements.
- **COMPETITIVELY PRICED** - We offer the best quality mattress and box spring protectors at affordable prices.

Plus+ Advantage®
Patent Pending

Made in USA

The Plus+ Advantage® by Mattress Safe®

The Plus+ Advantage® encasement stretches to fit a variety of depths and lengths.

- Aids in Prevention of Bed Bug Hitch-Hiking.
- LaundrySafe® Bag Included for Washing and Storage
- Optional Nonskid Feet (Additional Charge)
- Sofcover® Collection*
- Only Available in Black Onyx and White

Why Mattress Safe®?

A Company Beyond Comparison

Mattress Safe, Inc. is a family business dedicated to offering excellent products with unparalleled customer service. We offer the flexibility and relationship needed in order to provide the best products in a changing industry.

- **MADE IN USA**  - 90% of our product selection is made right here in America to support our nation's economy.
- **INNOVATIVE FABRIC** - We carefully selected our soft and luxurious fabric to be designed for comfort and easy care while providing durability and protection for all applications.
- **WATERPROOF** - Protects against spills and fluids.
- **FIRE RETARDANT** - Mattress Safe® is proud to feature fire retardancy as a vital feature of our laminated fabric. Tested by the Fire Protection Agency and passing the Cigarette Burn Test - CFR Title 16 Part 1632 (FF4 - 72).
- **DUST MITE PROTECTION** - When our fabric was tested for dust mite allergen transference, the amount of allergen that passed through the fabric was considered to be too small to measure.
- **BED BUG CERTIFICATION** - Mattress Safe® uses a certified entomologist to test with live bed bugs to ensure that data is 100% accurate. The bed bugs cannot penetrate or escape through the protectors or bite through the laminated fabric.
- **GOING GREEN** - The use of Mattress Safe® encasements eliminates the need to apply any chemical treatments to a mattress.
- **FEWER SKUs** - With our *Plus+ Advantage*® Feature - Our Ultimate, Superior, Classic, and Box Spring Encasements stretch to fit a variety of mattress depths and lengths. Stocking is easy as you only have to carry one size depth for each size mattress, reducing SKUs and maximizing inventory.

Offering Our New Sofcover® Color Collection

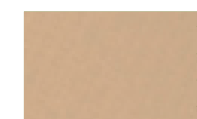

In addition to our stock white, Mattress Safe® offers six color options

Black Onyx

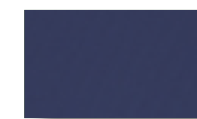

Dark Mocha

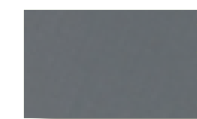

Fawn Beige

Eco Green

Navy

Slate Gray
