Product Use Description  
The following data was taken from the American Cyanamid MSDS for Hydramethylnon Issue Date March 3, 1991.

MaxForce® Fine Granular Insect Bait is a ready to use product for use in and around buildings, on lawns, and other non-crop areas for control of roaches, crickets and a variety of ants species.

SECTION 3. HAZARDS IDENTIFICATION

NOTE: Please refer to Section 11 for detailed toxicological information.

Emergency Overview
Caution. Keep out of the reach of children. Hazards to humans. Keep out of reach of children and animals. Applicators should wear gloves and wash hands thoroughly after handling. Avoid prolonged exposure to sunlight (active will degrade). Do not apply directly to water.

Physical State
granules

Immediate Effects

Eye
Avoid contact with eyes.

Skin
Avoid contact with skin.

Ingestion
May be harmful if swallowed.

Medical Conditions
Aggravated by Exposure
No known health conditions are aggravated by exposure to this product.

Signs and Symptoms
Effects resulting from over-exposure are not anticipated to occur.

SECTION 4. FIRST AID MEASURES

Ingestion
Drink one or two glasses of water and induce vomiting by touching the back of the throat with finger, or by giving 1 ounce of syrup of ipecac, if available. Do not induce vomiting or give anything by mouth to an unconscious person. Get medical attention.

SECTION 5. FIRE FIGHTING MEASURES

Flash Point
> 94 °C / > 201 °F
Method: Tagliabue Closed Cup
Not flammable or Explosive

Fire and Explosion Hazards
Avoid heavy hose streams, airborne dusts of the active ingredient, Hydramethylnon, may create explosive hazard.

Suitable Extinguishing Media
water, foam, carbon dioxide (CO2), dry chemical

Fire Fighting Instructions
Wear self-contained, positive pressure breathing apparatus and full fire fighting protective clothing.

Keep unnecessary people away. Use as little water as possible. Dike area of fire to prevent pesticide run-off. Use spray or fog - solid stream may cause
spreading.

Conduct fire fighting and rescue operations from upwind of the fire area. Evacuate people downwind who may come in contact with smoke, fumes, or contaminated surfaces. Do not decontaminate personnel or equipment, or handle broken packages or containers without protective equipment as specified in the Section 8. Decontaminate emergency personnel with soap and water before leaving the fire area.

Avoid breathing dusts, vapors and fumes from burning materials. Alert medical personnel to be ready to treat for pesticide poisoning. Control run-off water - if water enters a drainage system, advise the authorities downstream.

**Dust Explosion Class**

The active ingredient, Hydramethylnon, has been treated in a 20-liter spherical bomb (per NFPA 68-1978) and has been found to be a Class 2 dust explosive hazard. If the material is further processed, the dust explosion hazard may change and it should be retested.

---

### SECTION 6. ACCIDENTAL RELEASE MEASURES

| General and Disposal | Non-hazardous waste. Wear appropriate gear for the situation. See Personal Protection information in Section 8. Sweep up spilled material. Place in a container for disposal. Flush with water. |

### SECTION 7. HANDLING AND STORAGE

<table>
<thead>
<tr>
<th>Handling Procedures</th>
<th>Do not use on edible food or on areas intended for edible food crop production. Avoid contamination of food, food contact surfaces and feedstuffs. Indoor applications are limited to areas that are inaccessible to children or pets.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Storing Procedures</td>
<td>Pets may be attracted to this product. Keep pets away from treated areas for at least 24 hours after application. Store in a cool, dry secured storage area. Keep container closed when not in use. Avoid contamination from other insecticides. Do not contaminate water, food, or feed by storage or disposal. Keep away from sources of ignition and protect from exposure to fire and heat.</td>
</tr>
<tr>
<td>Work/Hygienic Procedures</td>
<td>Employees engaged in handling bulk quantities of Hydramethylnon should remove clothing and shower prior to exiting the work site. All employees working with the material should wash their hands prior to consuming food or tobacco products. A NIOSH-approved respirator must be worn by employees where it is not feasible to use engineering controls and employee-exposure exceeds 1.4 mg/m3.</td>
</tr>
</tbody>
</table>
A NIOSH-approved cartridge respirator for pesticides is acceptable for exposure up to 10 X the TWA. Use a NIOSH-approved air or self-contained pressure demand respirator for higher levels of exposure.

Food, gum and tobacco products should not be allowed in areas where material is being processed.

SECTION 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Engineering Controls
Local exhaust ventilation should be used to maintain exposures below the 8-hour TWA and to control the generation of airborne dust from the active ingredient, Hydramethylnon, at points of transfer or other points where full enclosure is not feasible.

Eye/Face Protection
Dust-proof goggles are recommended for employees engaged in operations where there is a risk of accidental exposure to eyes from the active ingredient, Hydramethylnon.

Body Protection
Normal work clothing, like cloth overalls, is indicated.

Respiratory Protection
A NIOSH-approved respirator must be worn by employees where it is not feasible to use engineering controls and employee-exposure exceeds 1.4 mg/m³.

General Protection
All electrical wiring and equipment should meet the provisions of NFPA-70.

Exposure Limits
None Established

SECTION 9. PHYSICAL AND CHEMICAL PROPERTIES

Physical State
granules

Specific Gravity
0.60
Melting/Freezing Point  > 60 °C

SECTION 10. STABILITY AND REACTIVITY

Chemical Stability  This material is stable under normal handling and storage conditions described in Section 7.

SECTION 11. TOXICOLOGICAL INFORMATION

Acute Oral Toxicity  The active ingredient, Hydramethylnon
Male Rat: LD50: 1,131 mg/kg
Moderately toxic.

Acute Dermal Toxicity  The active ingredient, Hydramethylnon
Rabbit: LD50: > 5,000 mg/kg
Practically non-toxic.

Acute Inhalation Toxicity  The active ingredient, Hydramethylnon
Practically nonhazardous.

Skin Irritation  The active ingredient, Hydramethylnon
Rabbit: Mild to moderate skin irritation.
Subacute dermal studies in which rabbits were exposed to the active ingredient at levels of 250 mg/kg/day for 21 days did not reveal any adverse findings.

Eye Irritation  The active ingredient, Hydramethylnon
Rabbit: Reversible irritation after 24-hour wash phase.
No irritation after a 20-second wash phase.

Chronic Toxicity  The active ingredient, Hydramethylnon
No conclusive oncogenic effects were observed in mice and rats at any dose level tested. However, under microscopic examination, from chronic feeding studies in rats, mice and dogs, there was wasting of muscle and subcuaneous fat as well as testicular atrophy in high dose males. Decreased body weight, anorexia and signs of amaciation were prominent in high dose feeding groups (200 ppm)

Assessment Carcinogenicity

ACGIH  None
NTP  None
IARC  None
OSHA  None
Reproductive & Developmental Toxicity
In a multi-generation reproduction study, reproductive performance was not compromised by hydramethylnon administration. However, all high dose treatment groups (200 ppm) exhibited decreased body weights, anorexia and poor fertility.

Teratogenicity
No teratogenic effects were found at any dose level tested in albino rats. However, at the dose level of 30 mg/kg/day (highest dose tested), hydramethylnon produce both maternal and embryotoxic effects.

Mutagenicity
Technical Hydramethylnon was examined in the Ames mutagenicity test and was found to be nonmutagenic. Similar results were achieved in a Dominant Lethal Test conducted in male rats treated with hydramethylnon by gavage for 5-days.

SECTION 12. ECOLOGICAL INFORMATION
Environmental Precautions
This product is toxic to fish. Do not apply directly to water. Do not contaminate water by cleaning of equipment or disposal of equipment wastewaters.

SECTION 13. DISPOSAL CONSIDERATIONS
General Disposal Guidance
Do not contaminate water, food, or feed by disposal. Dispose in accordance with all local, state/provincial and federal regulations.

Container Disposal
Do not reuse empty container for any use other than this product. Wrap empty container and place in trash can.

RCRA Classification
Not Regulated under this Statute
