

MICREL-TOTAL 5-0-0

AN 8-PACK OF CHELATED MICRONUTRIENTS CORRECTS DEFICIENCIES FAST

- Corrects a broad range of micronutrient deficiencies
- Rapid green up
- Agronomically balanced formula of 8 micronutrients
- Foliar- or root-absorbed on turf, tree and nursery plants
- A unique citric acid/urea nitrogen chelate
- Corrects chlorosis rapidly within 24 hours

With S, Mg, B, Cu, Fe, Mn, Mo, and Zn A Total Liquid Micronutrient Package

Micrel Total is a true solution containing eight chelated micronutrients used to correct deficiencies (including chlorosis) in turf, trees, ornamentals and bedding plants. Micrel Total is completely miscible in water. The unique citrate/nitrogen chelate bond eliminates any flush growth or budding. All nutrients are available by either foliar or root feeding, and can be applied throughout the growing season with no concern of phytotoxicity. Micrel Total aids in resistance to disease and winter desiccation, and also in tolerance to stress. Chlorotic plants will respond within 48 hours with a deeper, healthier green.

PLANT HEALTH BENEFITS

- Improves turf's tolerance to climatic stress
- Contains important Magnesium & Manganese for enzyme and chlorophyll production
- Reduces yellowing due to herbicide applications
- Maintains iron in a soluble form for internal plant distribution
- Non-phytotoxic to turf, ornamentals and trees
