**CAUTION**

**HARMFUL IF SWALLOWED**

## GENERAL INFORMATION

FOLI-CAL is a liquid formulation of calcium for preventing and treating plant physiological disorders associated with calcium deficiency. Some of these are **Bitter Pit** of apples, **Blossom End-rot** of tomatoes, peppers and melons; **Brown Checking** (black heart) of celery; **Internal Brown Spot** of potato tubers; **Cork Spot** of pears; **Internal Browning** of grapes, etc. Foliar sprays of FOLI-CAL are intended to complement good soil fertility by supplying nutrients directly to the foliage, roots and fruit of crops during critical growth stages.

## DIRECTIONS FOR USE

**FOLIAR APPLICATIONS:** Thorough coverage and wetting are needed for optimum foliar spray results. Applications to actively growing plants produce the best results. Wet the entire plant surface. DO NOT apply to foliage when plants are suffering from moisture or heat stress.

**VEGETABLES & ORNAMENTALS:** Apply 3 fl. oz. in 2 gallons of water at the 10-12 true leaf state, then at 14 day intervals as needed.

**TREES & VINES:** Apply 6 fl. oz. in 4 gallons of water after fruit set and repeat at 14 day intervals throughout the season.

**TURF/LAWNS:** Apply whenever turf/lawn shows signs of calcium deficiency at 3 fl. oz. in 2 gallons of water and repeat at 14 day intervals as needed.

**HYDROPONICS:** Apply ½ pint (8 fl. oz) of FOLI-CAL in 25 gallons of water.

## CONDITIONS OF SALE AND WARRANTY

Because weather, crop, soil, and other conditions may vary, Lawn and Garden Products, Inc. and/or the Seller make no warranty of any kind, expressed or implied, concerning the use of this product. The user assumes all risks of use or handling, whether or not in accordance with use directions.
