GENERAL DESCRIPTION	wi	Mulch Magic ® is a unique blend of permanent colorants designed to be mixed with water and applied to faded fibrous mulch products like cedar, cypress, redwood bark, pine straw and more.		
	М	Mulch Magic is available in four colors.		
		For the look of	Use	
		Cedar or Pine Straw Eastern Hardwood Bark Redwood Black	Mulch Magic Bright Brown Mulch Magic Dark Brown Mulch Magic Red Mulch Magic Black	
PACKAGING	A	Available in 4x0.5 gallon jugs.		
DIRECTIONS FOR USE	wa be re	Mulch Magic instantly restores fresh color to faded mulch when mixed with water and applied with backpack or handheld sprayers. A 2-5 minute interval between applications (to allow some drying) enhances the appearance and results in a longer-lasting color treatment. Color will last on most mulches for more than one year with gradual fading.		
		Existing mulch naturally breaks and new mulch is added. Mulch Magic® will help blend the color of the older mulch with the newer mulch.		
	pe	ermanent staining, care should be ta	plants without adverse staining. To avoid then to avoid accidental application to light stones or other porous surfaces.	
RECOMMENDED	20 ap th de im	Mix 3-4 oz. (90-120 ml) of Mulch Magic in one gallon (3.78 L) of water to treat 200-400 sq. ft. (7-14 sq. m.). For color consistency, Mulch Magic should be applied in two passes, with the second pass perpendicular (at a right angle) to the first. This significantly decreases the skips and streaks. Coverage will also depend on mulch quality and desired color absorption. Higher use rates will impart a darker, longer-lasting color. Application should be made at least 30 minutes prior to irrigation or rainfall to prevent wash-off. Shake well before use.
