Hi-Yield®

Muriate of Potash

HI-YIELD® MURIATE OF POTASH supplies Potassium, which is one of the three primary plant nutrients needed by all plant life for vigorous growth and as an aid against nutritional diseases. Plants which develop below ground such as Dahlias, Gladiolas, Potatoes, Carrots, Onions, etc, require heavy Potash applications.

DIRECTION OF USE

HI-YIELD® MURIATE OF POTASH is highly concentrated, therefore care should be taken not to apply directly to the roots, stems or foliage of the plant. **HI-YIELD® MURIATE OF POTASH** should be worked into the soil and watered thoroughly after application.

APPLICATION RATE

Use ½ lbs to 100 square feet or ½ lb. to 100 row feet of crop.

(Note: 1 lb. is approximately 2 cups.)

This product is not intended for nor recommended for container grown plants.
