USER SAFETY RECOMMENDATIONS:

Users should wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet.

Users should remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.

Users should remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

ENVIRONMENTAL HAZARDS: This product is toxic to shrimp. Do not apply directly to water, areas where surface water is present, or to intertidal areas below the mean high water mark. Drift or runoff from treated areas may be hazardous to aquatic organisms in neighboring areas. Do not contaminate water when disposing of equipment washwaters. This product is highly toxic to bees exposed to direct treatment. Do not apply this product if bees are foraging in the treatment areas.

DIRECTIONS FOR USE: It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

READ ENTIRE LABEL, USE STRICTLY IN ACCORDANCE WITH PRECAUTIONARY STATEMENTS AND DIRECTIONS, AND WITH APPLICABLE STATE AND FEDERAL REGULATIONS.

USE RESTRICTIONS

- Do not use inside homes or residences, or any place where children or pets might be present.
- Do not apply this product in a way that will contact workers or other persons.
- Do not allow contact with food or water.
- Do not apply where food production animals can consume.
- Do not use in or on edible product areas of food processing plants or other areas where food is commercially prepared or processed.
- Do not use in serving areas while food is exposed.
- Do not use in food/feed areas of food/feed handling establishments.
- Do not apply to classrooms or hospital rooms.
- Do not apply to windy areas as house flies avoid these areas.

This product is generally non-staining but may leave a residue due to the bait constituents. Where aesthetics are of concern, apply a small amount of product in an inconspicuous location and observe area following drying to determine potential effects on treated surfaces.
