grade DE**

**Can be used  
on all dogs**

## DeFlea<sup>®</sup> Carpet Powder

**Naturally based product kills fleas,  
ticks, and bed bugs on carpets.**

**Can also be used on dogs.**

#### Directions:

Read entire label before each use and use only in accordance with label instructions. Apply the powder and allow it to remain in place for 12 hours before vacuuming. Apply powder more heavily to areas of flooring where pets spend most of their time. Apply to dry surfaces only. Do not wet powder.

#### For use on Carpets:

1. Shake powder evenly across surface.
2. Brush lightly with broom to force powder deep into carpet where fleas and their larvae exist.
3. Wait at least 60 minutes before (lightly) vacuuming to remove visible surface powder. For maximum efficacy, delay vacuuming for up to 24 hours.
4. When emptying vacuum bag after use, wrap contents or disposable bag in several layers of newspaper and discard in trash.
5. Treat pets with DeFlea<sup>®</sup> Pet & Bedding Spray prior to re-entry.

#### For use on Dogs:

1. To control fleas and ticks on dogs, dust powder liberally over the entire body.
2. Rub dust into hair, around feet, and in between toes. Do not put powder in dog's eyes, nose, or mouth.

This product contains fragrant compounds such as plant oils. Some people can be sensitive to such odors so it is recommended that you treat a small area before applying the product thoroughly. This product is non-staining to most household surfaces, however, the age of the surface, sunlight exposure, and prior damage can cause some surfaces to stain or discolor. Additionally, many surfaces can be highly sensitive to staining or discoloration. Test product on an inconspicuous area and recheck a few days later to look for any damage. Do not use if damage is observed.

#### **CAUTION:**

Avoid contact with eyes and skin. Keep out of reach of children. Contains: Cinnamon oil, Geraniol and food grade DE.

#### First Aid:

**In case of contact with eyes:**

Flush with cool water, remove contact lenses, if applicable, and continue flushing. Obtain medical attention if irritation persists.

**In case of contact with skin:**

Flush with cool water and wash with soap and water. Obtain medical attention if irritation persists.

**In case of ingestion:**

Do not induce vomiting. Obtain medical attention. Never give anything by mouth if victim is unconscious, or is convulsing.
