Natural Flea & Tick Spray™

**Kills fleas by contact and
fully effective for up to 7 days**

Read entire label before each use and use only in accordance with label instructions. This product can be used on any age dog, however, it is recommended to contact a veterinarian prior to bathing newborn, debilitated, aged, medicated, pregnant or nursing animals. Body temperature must be maintained. Sensitivities may occur after using any pesticide product for pets. If signs of sensitivity occur, bathe your pet with mild soap and rinse with large amounts of water. If signs continue, consult a veterinarian immediately.

Directions:

- *Spot test light colored pets/bedding/carpet/fabric prior to use.
1. Starting at the dog's head, spray the entire coat of animal, working downwards toward the tail. Be sure to include legs and paws. Do not apply directly to eyes, mouth or nose of the animal.
 2. Ensure the product reaches the skin by spreading the animal's coat against the lay.
 3. Dry with towel if desired.
 4. In addition to pet; spray on dog bedding that may be infested, making sure adequate product is used to cover areas where fleas may be hiding.
 5. Repeat as necessary.
