New Lawn Starter Fertilizer

DIRECTIONS FOR USE

We recommend **ferti·lome® NEW LAWN STARTER FERTILIZER** because our many years of experience have proven it to be especially useful for getting new Lawns growing vigorously and for promoting rich green Grass.

1. WHAT IS THIS PACKAGE FOR?

ferti·lome® NEW LAWN STARTER FERTILIZER provides an excellent source of the Guaranteed Plant Nutrients needed in new Lawns for vigorous, rich green growth.

2. HOW DO YOU USE IT?

FOR NEW LAWNS – SEED BED PREPARATION:

A. Work soil 3-5 inches deep to proper grade to insure good drainage . . . a prong rake is ideal for this purpose. Avoid leaving low areas in the Lawn where water may stand.

B. Apply **ferti·lome® NEW LAWN STARTER FERTILIZER** using Spreader Settings in the table below. Work **ferti·lome® NEW LAWN STARTER FERTILIZER** into the top 2-3 inches of soil.

C. Seed uniformly at the rate suggested on the seed package. Best results can be obtained when seed is applied with a fertilizer spreader. If desired, mix-seed with clean top soil, sand, vermiculite or other carrier for a uniform application. After seed application, cover the seed to a depth of ¼ inch . . . turning a flexible tine rake upside down and dragging lightly across the seeded area is ideal for this purpose.

D. Water gently . . . the secret to successful seed germination is to water gently (not wet) until seeds germinate.

FOR NEW LAWNS-SODDED AND SPRIGGED PREPARATIONS:

A. Work the soil 3-5 inches deep to a proper grade. Apply **ferti·lome® NEW LAWN STARTER FERTILIZER** using the Spreader Settings in the table below and work into the top 2-3 inches of the soil.

B. Sod or sprig as desired.

C. Water thoroughly after sodding or sprigging. Keep soil constantly moist for several weeks after application or until new Grass is securely rooted. Do not keep soil saturated with water.

SPREADER GUIDE ONE BAG WILL COVER UP TO 2,500 SQUARE FEET	
SPREADER	SPREADER SETTINGS
ferti·lome® By Spyker	3.8
ferti·lome® Plus Iron Broadcast/Earthway 2850	14
ferti·lome® Plus Iron Prof. Broadcast/Earthway 2800A	14
ferti·lome® Deluxe Broadcast/Earthway 2050 S.U.	14
Earthway Drop 7300B	16
Scott Broadcast/Speedy Green	6
Republic/Scotts Broadcast	5
Republic Drop	6
Precision Broadcast/Red Devil	10
Precision Drop FH-22D	9

To build good turf, feed with **ferti·lome® NEW LAWN STARTER FERTILIZER** monthly during Growing Season.

These settings can be used only as a guide, they are not absolute. The speed at which the applicator walks, spreader condition and the texture of the turf will alter the rate of application. If product remains in spreader after application to recommended square foot coverage, spread remainder over same area going at right angles (See Diagram).

NOTE: Keep fertilizer away from Shrubs and Tree trunks. Not recommended for Container Grown Plants.

This product applies 4.0 lbs. of product per 1,000 sq. ft.

3. HERE ARE THE RESULTS YOU MAY EXPECT!

When used as directed, **ferti·lome® NEW LAWN STARTER FERTILIZER** will help Grasses develop good root systems quicker and thus allow Grass to grow faster and provide a rich green Lawn.
