

NON-SELECTIVE HERBICIDE

## MULTI-PURPOSE HERBICIDE PROVIDES POWERFUL CONTROL.

Cattails, Japanese bamboo and many other tough aquatic and brushy weeds are no match for Nufarm Polaris® Herbicide. Nufarm Polaris can be used in wetlands, riparian zones, estuaries and wetlands, as well as wildlife openings, utility and roadside rights-of-way and other non-crop areas. The long-lasting control offered by Nufarm Polaris can help reduce the need for re-treatments, and a low use rate means there's less product to handle and apply. Like all Nufarm products, Nufarm Polaris delivers the performance you expect.

### COMPETITIVE ADVANTAGES

#### BROAD-SPECTRUM CONTROL

- Provides control of various broadleaf weeds, annual and perennial grasses as well as many brush and vine species
- Labeled for application in lakes, rivers, streams, ponds, seeps, drainage ditches, canals, reservoirs, swamps, bogs, marshes, estuaries, bays, brackish water, transitional areas between terrestrial and aquatic sites and seasonal wet areas

#### LONG-LASTING RESULTS

- Highly effective herbicide providing long-term control of unwanted vegetation
- Prevents re-sprouting or germination of labeled weeds and brush in treated areas when used at recommended rates

### AT-A-GLANCE INFO

EPA REG. NO.	228-534
ACTIVE INGR.	imazapyr (28.7%)
FORMULATION	liquid
CHEM. FAMILY	imidazolinone
GROUP NO.	2
MODE OF ACT.	inhibition of acetolactate synthase (ALS)
SIGNAL WORD	caution
RESTRICTED	no
PACKAGE SIZE	2.5 gal container (2 per case), 5 gal container, 250 gal tote

MORE PRODUCTS EXCLUSIVELY FROM NUFARM

**AquaSweep**™ | **Clipper**® SC | **Piper**®

**MULTI-PURPOSE HERBICIDE PROVIDES POWERFUL CONTROL.**

**KEY USES**

Aquatic sites  
 Fencerows, non-irrigation ditch banks and wildlife openings  
 Industrial non-cropland areas  
 Unimproved bermudagrass and bahiagrass turf, roadsides and utility rights-of-way

**KEY WEEDS CONTROLLED**

(See product label for complete list)

**AQUATIC**

Alligatorweed  
 Arrowhead, duck-potato  
 Bacopa, lemon  
 Bamboo, Japanese  
 Brazilian pepper, Christmasberry  
 Cattail  
 Chinese tallowtree  
 Cogon grass  
 Cordgrass, prairie  
 Cutgrass

**GRASSES**

Annual bluegrass  
 Bahiagrass  
 Barnyardgrass  
 Beardgrass  
 Bermudagrass

**BROADLEAF WEEDS**

Chickweed, mouseear  
 Clover  
 Knotweed, prostrate  
 Kochia  
 Lambsquarters  
 Pigweed  
 Plantain  
 Puncturevine  
 Rush  
 Shepherd's-purse  
 Sowthistle  
 Spurge, annual

**VINES AND BRAMBLES**

Blackberry  
 Honeysuckle  
 McCartney rose  
 Morningglory  
 Poison ivy  
 Virginia creeper  
 Wild rose, multiflora rose

**USE SUMMARY**

**RATES: BASED ON WEED TYPE**

Aquatic.....	1 to 6 pts/A
Grasses.....	2 to 6 pts/A
Broadleaf Weeds.....	2 to 6 pts/A
Vines and Brambles.....	1 to 6 pts/A
Brush.....	4 to 6 pts/A

Naturally occurring biotypes of some weeds listed on this label may not be effectively controlled. If naturally occurring resistant biotypes are present in the area, Nufarm Polaris® should be tank-mixed or applied sequentially with an appropriate registered herbicide with a different mode of action.

See label for complete directions for use.
