Fire Fighting Measures (Continued)

Unusual Fire and Explosion:

May be ignited by heat, sparks or flame. Vapors may travel along the ground to a distant source of ignition and flash back. Burning may generate poisonous gases. Runoff from fire control area or dilution water may cause pollution. If surface water is contaminated, contact local authorities.

6. Accidental Release Measures:

Steps to be Taken in Case Material is Released or Spilled:

See Section 8 for Personal Protective Equipment. Remove all sources of ignition. Provide good ventilation to the spill area. Contain and absorb spilled material on inert absorbent. Collect into drums; cover and label for disposal. Flush area with water if possible.

7. Handling and Storage:

Precautions to be Taken:

PROHIBITIONS: Do not contaminate water, food or feed by storage or disposal. Open dumping is prohibited. Do not reuse empty container.

STORAGE: Store in original container only. Keep container closed when not in use. Do not store near food or feed. In case of spill or leak on floor or paved surfaces, soak up with sand, earth or synthetic absorbent. Remove to chemical waste area.

Other Precautions:

PHYSICAL AND CHEMICAL HAZARDS:
Do not use or store near heat or open flame.

8. Exposure Controls/Personal Protection:
