

Osmocote® Blend

18-5-12

SKU - A98605
Packaging - 50 lb

Osmocote® Blend 18-5-12 8-9 month is a quickstart formulation that is made with 100% resin-coated N-P-K homogenous nutrient cores blended with uncoated homogenous N-P-K prills and STEP Hi-Mag micronutrient granules.

The uncoated N-P-K granules release quickly when watered to charge the growing media or provide nitrogen for the draft that occurs in green bark.

Target Crops/ Special Uses

Osmocote® Blend 18-5-12 8-9 Month works great in container grown nursery plants and is commonly used in landscape containers and flower beds. The Quickstart helps the newly planted beds and containers establish and fill in quickly. The 100% resin-coated nutrient cores take in moisture and slowly feed the plants for up to 9 months.

Because Osmocote® Blend 18-5-12 fertilizer cores contain only Ammoniacal and Nitrate Nitrogen, with a top quality resin coating, we can confidently recommend this product in production nurseries, landscape containers and flower beds. The STEP Hi-Mag micronutrient package supplies a variety of water soluble minor nutrients to insure that all the plant needs are being met in a wide variety of conditions.

PRODUCT ADVANTAGES

- Contains Quickstart nutrients to quickly establish transplants and help account for nitrogen use in green bark media
- Blended with a spectrum of 100% resin-coated N-P-K nutrient cores
- Contains STEP Hi-Mag to provide a balance of micronutrients to maximize plant growth

APPLICATION RATES

The application rates listed are intended as a guideline in developing a fertilization program. These rates may or may not apply to your area or growing conditions. It is the responsibility of the grower to determine the appropriate rate. Your rate may be higher or lower than suggested based on your growing conditions. Follow label instructions and use care when handling all fertilizer products.

FOR PROFESSIONAL USE ONLY

ICL Specialty Fertilizers recommends a product trial prior to adopting a new fertilizer program. Product selection and application rate should be based on individual grower practice. The following are general recommendations only.

CONTAINER NURSERY STOCK SUGGESTED APPLICATION AND RATES

Product selection and application rates should be based on individual grower practices. Some factors that influence selection include:

- Climate
- Specific Crop
- Type of Growing Media
- Other Nutrient Sources
- Irrigation Type
- Rainfall Amount
