

PRE-SAN® 7G & PRE-SAN® 12.5G

GRANULAR

Granular form of Bensumec™ 4LF Herbicide.

Pre-San® Granular herbicide is recommended for pre-emergent control of crabgrass, goosegrass and *Poa annua* as well as other listed annual weeds in turfgrass.

The Pre-San labels cover virtually all the major turfgrass species.

One of the primary criteria for selecting a pre-emergent herbicide is the tolerance of the turfgrass to the herbicide. The tolerance of established bentgrass (even on greens) to bensulide at labeled rates has been cited as good to excellent by users and researchers.

Golf course superintendents may use different formulations for the initial and sequential applica-

tions. For example, Pre-San Granular 7G or Pre-San Granular 12.5G may be used during cold periods in early spring and Bensumec™ 4LF may be used later in the year.

Bensulide applications to bentgrass will provide effective weed control and maintain the uniformity, density and color of bentgrass.

Ratings for turfgrass tolerance and weed control are the reasons that these pre-emergent herbicides containing bensulide are the preferred choices for bentgrass greens, tees, aprons and fairways.

Pre-San is a registered trademark of PBI/GORDON CORPORATION.

RECOMMENDATIONS

Granular selective herbicide for pre-emergent control of crabgrass and annual bluegrass in turf.

PRE-SAN® 12.5G

ACTIVE INGREDIENT:

Bensulide: *S*-(0,0-Diisopropyl phosphorodithioate) ester of *N*-(2-mercaptoethyl) benzenesulfonamide 12.5%
Inert Ingredients 87.5%
EPA Reg. No. 10163-198-2217

PRE-SAN® 7G

ACTIVE INGREDIENT:

Bensulide: *S*-(0,0-Diisopropyl phosphorodithioate) ester of *N*-(2-mercaptoethyl) benzenesulfonamide 7.0%
Inert Ingredients 93.0%
EPA Reg. No. 10163-204-2217

PACKAGING:

12.5G formulation 50 lb. bag
7G formulation 40 lb. bag

- *Convenient, easy to apply granules — no spray equipment needed*
- *Controls annual bluegrass (Poa annua), crabgrass, goosegrass and many other weeds in turf*

- *Long residual control . . . up to four months protection*
- *Reduces breakthroughs, complaints and retreatments*
- *Doesn't cause root pruning*
- *High turfgrass tolerance*
