

PPZ 41.8 SELECT™

FUNGICIDE

Effective Long Term Residual Protection

ACTIVE INGREDIENT

Propiconazole

% ACTIVE INGREDIENT

41.8%

FORMULATION

Emulsifiable Concentrate

CHEMICAL FAMILY

Triazole

BRAND ALTERNATIVE

Spectator™ Tilt®

MODE OF ACTION

Demethylation Inhibitor,
Inhibits sterol biosynthesis in the fungal cell

RESTRICTED USE

None

SIGNAL WORD

Warning

PACKAGING INFORMATION

4 x 1 gal.

LABELED USES

Commercial Lawns
Golf Course
Landscapes
Numerous Crops

PPZ 41.8 Select is a broad spectrum fungicide recommended for the control of many important plant diseases. PPZ 41.8 Select provides preventative and curative control of many turfgrass, ornamental and crop diseases. By providing full season protection for some crops, PPZ 41.8 Select is an economical way to protect and enhance the return on your investment. With a low odor emulsifiable concentrate formulation, PPZ 41.8 is a highly compatible tank mix partner. It is effective in improving the rate of establishment, when applied to cool season grass seedlings or sod.

- Excellent residual control
- Low use rates
- Low odor formulation
- High tank mix compatibility
- Labeled for Turf, Ornamentals & Crop Protection applications
- Full season disease control on some crops

IMPORTANT:
ALWAYS READ AND FOLLOW
LABEL INSTRUCTIONS.

PRIME SOURCE

PPZ 41.8 SELECT™

FUNGICIDE

Crop Applications:

Ground Application:

For tree crops, apply in a minimum of 50 gallons of water per acre unless specified otherwise. For other crops, apply a minimum of 10 gallons of water per acre unless specified otherwise.

Aerial Application:

For tree crops, apply in a minimum of 10 gallons of water per acre unless specified otherwise. For other crops, apply in a minimum of 2 gallons of water per acre unless specified otherwise.

Application Through Irrigation Systems (Chemigation):

Apply PPZ 41.8 Select through irrigation equipment only to crops for which chemigation is specified on this label.

Turf Applications:

PPZ 41.8 Select is a systemic fungicide for use on turfgrasses for the control of over 19 listed diseases. PPZ 41.8 Select also controls numerous diseases on ornamentals and other landscape and nursery plantings. It controls powdery mildews, rusts, leaf spots, scabs, and blights. Refer to the appropriate sections of the label for application instructions for specific diseases and plants. For broader spectrum control, PPZ 41.8 Select can be mixed with other fungicides and is also compatible with numerous herbicides and insecticides. Observe all directions, precautions, and limitations on labeling of all products used in tank mixes.

Establishment of Cool Season Turfgrass

PPZ 41.8 Select provides control of many diseases of turf, and its primary use is as a fungicide for use against the diseases listed on this label. As an additional benefit, PPZ 41.8 Select will improve the rate of establishment when it is applied to cool season grass seedlings or sod.

New Seedlings:

Apply 0.35 fl. oz./1,000 sq. ft. at the 2 to 3-leaf stage of growth for faster root development and top growth.

Sod:

Apply 0.35 fl. oz./1,000 sq. ft. 2-6 weeks before cutting for increased sod knitting and faster establishment after laying.

LABELED TURF DISEASES INCLUDE

Anthracnose
Brown Patch
Dollar Spot
Fusarium Patch
Gray Leaf Spot
Gray Snowmold
Leaf Spot
Necrotic Ring Spot
Pink Patch
Pink Snowmold
Powdery Mildew
Red Thread
Rust
Spring Dead Spot
Stripe Smut
Summer Patch
Take-All Patch
Yellow Patch
Zoysia Patch

LABELED ORNAMENTAL DISEASES INCLUDE

Blights
Leaf Spots
Powdery Mildews
Rusts
Scabs
