## Pendulum® 2G herbicide

### Reliable preemergent chemistry

Pendulum 2G herbicide offers preemergent control of grassy and broadleaf weeds in a granular formulation for crabgrass, goosegrass, foxtail, oxalis, purslane, chickweed, puncturevine, henbit, woodsorrel, spurge and more.

Flexible residual protection	Effective control	Challenging weeds	Broad use sites
			
Prevent germinating weeds for months with simple granular application	Preemergent control of 45+ troublesome grassy and broadleaf weeds	Crabgrass, oxalis, henbit, spurge, sandbur, cupgrass, hop clover and burweed	Apply to turf, over-the top of ornamentals, landscape and bareground

## Reliable preemergent chemistry

- Pendulum 2G herbicide controls weeds as they germinate by inhibiting root formation
- Granular formulation makes applications convenient and efficient
- Flexible time to watering in - up to 30 days
- Long residual for weeks to months
- No odor or staining

## Broad spectrum control and uses

- For residential and non-residential turf, including golf course, commercial, and landscape use
- Labeled for application to warm season and cool season turf types
- Tolerance tested on over 330 ornamental varieties
