

## Safe for Children and Pets • Silicone Free

Pet Peeve™ Insect Spray contains natural insecticidal essential oils to kill and repel a wide variety of insects, such as fleas, ticks, lice, mites, bed bugs, mosquitoes, flies, biting flies, midges, and ants.

The natural essential oils in Pet Peeve<sup>TM</sup> Insect Spray are produced by plants to help protect them from insect attack. This natural technology is now harnessed to kill and repel pests on you, your pet and in your home. Control is provided the way Mother Nature intended, while leaving you and your pets free from exposure to harsh synthetic chemicals. Unlike other supposedly "natural" cedar oil products which contain synthetic polysiloxane silicones, Pet Peeve<sup>TM</sup> Insect Spray is a water-based liquid, with a natural vegetable oil-based emulsifier which meets EPA's minimum risk requirements.

## **Directions for Use**

To control fleas, ticks, mites, bed bugs and a variety of other pests around the house or outside, spray a light mist over affected areas. Treat pet resting areas, play areas, kennels, window screens, door frames, pest nests, pet food storage areas and any other area where pest activity is present. The essential oils evaporate very slowly providing extended treatment results.

Pet Peeve™ Insect Spray may also be applied to pets, children and adults to provide all day relief from pests. Apply a light mist directly to the skin, fur or clothing. Do not apply directly to the face or genital area. It won't sweat off throughout the day and provides a fresh clean feeling to the skin unlike aerosols containing harsh chemicals. Some people or pets may be sensitive to essential oils. If in doubt, treat a small area first and wait 24 hours for any negative reaction. In case of any reaction, wash area with water and a mild soap or shampoo and contact your physician or veterinarian for any persistent irritation.

## **Common Sense Precautions**

Do not apply to food or direct food contact surfaces. Avoid directly breathing spray mist. Do not allow children to apply product. If more than an incidental amount is swallowed, seek medical attention. Give one glass of water and do not induce vomiting. Wash hands well after use and before eating or smoking. If in eyes, remove contacts and flush with water for 15 minutes. Seek medical attention for any persistent irritation. Store out of reach of children and in a closed, appropriately labeled container between 35 and 95 °F.

This product is a minimum risk pesticide and is exempt from registration under EPA FIFRA 25(b).

## **Active Ingredients:**

 Cedar Oil........7.0%

 Geraniol.......2.5%

 Mint Oil.......0.5%

Inert Ingredients:

Water, Polyglyceryl oleate
