

Supersedes: 03/29/2016

Version: 1.0

SECTION 1: Identification					
1.1. Identification					
Product form	: Mixture				
Trade name					
Synonyms	: EPA Reg. No.: 73342-1-2724, 24500B, 24510C				
1.2. Recommended use and restriction	ns on use				
Recommended use	: Insecticide.				
Restrictions on use	: Keep out of reach of children. Avoid contact with eyes, skin or clothing. Do not use or store near heat or open flame.				
1.3. Supplier					
Wellmark International					
1501 E. Woodfield Road, Suite 200W					
Schaumburg, IL 60173 - United States					
www.zoecon.com					
1.4. Emergency telephone number					
Emergency number	: 1-800-248-7763 1-800-424-9300 - CHEMTREC				
	1-000-424-9500 - CHEMIREC - Outside North America - Collect Calls Accepted				
SECTION 2: Hazard(s) identificatio					
2.1. Classification of the substance or	mixture				
GHS US classification					
Serious eye damage/eye irritation Category 2E					
Reproductive toxicity Category 1B Combustible Dust	May damage fertility or the unborn child May form combustible dust concentrations in air				
GHS US labeling Hazard pictograms (GHS US)					
	GHS08				
Signal word (GHS US)	: Danger				
<b>o</b> ( )	0				
<b>č</b>	: May form combustible dust concentrations in air Causes eye irritation				
Hazard statements (GHS US)	: May form combustible dust concentrations in air Causes eye irritation May damage fertility or the unborn child				
Hazard statements (GHS US)	<ul> <li>May form combustible dust concentrations in air Causes eye irritation May damage fertility or the unborn child</li> <li>Obtain special instructions before use.</li> </ul>				
Signal word (GHS US) Hazard statements (GHS US) Precautionary statements (GHS US)	: May form combustible dust concentrations in air Causes eye irritation May damage fertility or the unborn child				
Hazard statements (GHS US)	<ul> <li>May form combustible dust concentrations in air Causes eye irritation May damage fertility or the unborn child</li> <li>Obtain special instructions before use. SECTION 3: Composition/Information on ingredients

Safety Data Sheet

#### **Substances** 31 Not applicable 3.2. **Mixtures** Name **Product identifier** % Hydramethylnon (CAS-No.) 67485-29-4 0.73 **Defatted Grits** (CAS-No.) N/A 70 - 80Non-hazardous and/or does not meet criteria for classification (CAS-No.) N/A Balance **SECTION 4: First-aid measures Description of first aid measures** 4.1. First-aid measures after inhalation : IF INHALED: Remove person to fresh air and keep comfortable for breathing. Call a POISON CENTER or doctor/physician if you feel unwell. First-aid measures after skin contact : IF ON SKIN: Wash with plenty of soap and water. If skin irritation or rash occurs: Get medical advice/attention. First-aid measures after eye contact : IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice and attention. First-aid measures after ingestion : IF SWALLOWED: Call a POISON CENTER or doctor/physician if you feel unwell. Rinse mouth. Do NOT induce vomiting unless directed to do so by medical personnel. 4.2. Most important symptoms and effects (acute and delayed) Symptoms/effects after eye contact : May cause mild eye irritation. Chronic symptoms : May damage fertility or the unborn child. 43 Immediate medical attention and special treatment, if necessary Treat symptomatically. SECTION 5: Fire-fighting measures 5.1. Suitable (and unsuitable) extinguishing media : Water spray. Carbon dioxide. Dry chemical. Foam. Suitable extinguishing media Unsuitable extinguishing media : Avoid heavy hose streams. 5.2. Specific hazards arising from the chemical Explosion hazard : Dust cloud can be ignited by a spark. Fine dust dispersed in air in sufficient concentrations, and in the presence of an ignition source is a potential dust explosion hazard. This material is friable and can create small dust particles during any handling, processing, and Reactivity transfer operations. This material can form explosive dust/air suspensions that are ignitable under some conditions. Special protective equipment and precautions for fire-fighters 5.3. **Firefighting instructions** : Combustible dust - use low-pressure medium fog streams to avoid dust clouds. Ventilate closed spaces before entering. Eliminate ignition sources. Protection during firefighting : Do not attempt to take action without suitable protective equipment. Self-contained breathing apparatus. Complete protective clothing. SECTION 6: Accidental release measures 6.1. Personal precautions, protective equipment and emergency procedures 6.1.1. For non-emergency personnel : Avoid contact with skin, eyes and clothing. Do not breathe dust. Keep upwind. No flames, no Emergency procedures sparks. Eliminate all sources of ignition. Evacuate unnecessary personnel. 6.1.2. For emergency responders : Do not attempt to take action without suitable protective equipment. For further information Protective equipment refer to section 8: Exposure controls/personal protection. : Use grounded electrical/mechanical equipment. Contain spill and monitor for excessive dust Emergency procedures accumulation. Turn off electric power to area. ELIMINATE all ignition sources (no smoking, flares, sparks or flames in immediate area). As an immediate precautionary measure, isolate spill or leak area for at least 50 meters (150 feet) in all directions. Evacuate unnecessary personnel. **Environmental precautions** 62 Avoid release to the environment.

Safety Data Sheet

6.3. Methods and material for containme	ent and cleaning up
Methods for cleaning up	: Use appropriate PPE. Sweep or scoop spills, dispose of any unusable material in approved landfill. Dust deposits should not be allowed to accumulate on surfaces, as these may form an explosive mixture if they are released into the atmosphere in sufficient concentration. Non-sparking tools should be used.
SECTION 7: Handling and storage	
7.1. Precautions for safe handling	
Precautions for safe handling	Ensure good ventilation of the work station. Wear personal protective equipment. Avoid dust formation. Avoid contact with skin, eyes and clothing. Finely divided: keep away from ignition sources/sparks.
Hygiene measures	: Do not eat, drink or smoke when using this product. Always wash hands after handling the product.
7.2. Conditions for safe storage, includi	ng any incompatibilities
Storage conditions	: Store in a well-ventilated place. Do not store near heat or open flame. Keep container closed when not in use. Store in a cool dry place. Store locked up.
Incompatible products	: Heat, sparks, open flame.

# Incompatible materials : Strong acids. Strong bases. Strong oxidizers.

# SECTION 8: Exposure controls/personal protection

# 8.1. Control parameters

Defatted Grits (N/A)				
ACGIH	ACGIH TWA (mg/m³)	3 mg/m3 Respirable particles, 10 mg/m3 Inhalable particles (as Particulates Not Otherwise Classified (PNOC))		
OSHA	OSHA PEL (TWA) (mg/m³)	5 mg/m3 Respirable fraction, 15 mg/m3 Total dust (as Particulates Not Otherwise Classified (PNOC))		

8.2.	Appropriate engineering controls	
Appropriate engineering controls		: Adequate ventilation systems as needed to control concentrations of airborne contaminants below applicable threshold limit values. It is recommended that dust control equipment such as local exhaust ventilation and material transport systems involved in handling of this product contain explosion relief vents or an explosion suppression system or an oxygen-deficient environment.
Environ	mental exposure controls	: Avoid release to the environment.
8.3.	Individual protection measures/Pers	onal protective equipment

# Hand protection:

# Protective gloves

Eye protection:

Safety glasses

#### Skin and body protection:

Applicators and other handlers must wear long sleeved shirt and long pants, socks and shoes

# Respiratory protection:

In case of insufficient ventilation, use NIOSH approved respiratory protection.

# SECTION 9: Physical and chemical properties 9.1. Information on basic physical and chemical properties Physical state : Solid

Safety Data Sheet

Appearance	: Yellow-tan, free-flowing granules			
Color	: Yellow-tan			
Odor	: Characteristic of vegetable oil			
Odor threshold	: No data available			
PH	: Approx. 6 in 2% aq. solution			
Melting point	: No data available			
Freezing point	: Not applicable			
Boiling point	: No data available			
Flash point	: Not applicable			
Relative evaporation rate (butyl acetate=1)	: No data available			
Flammability (solid, gas)	: Non-flammable			
/apor pressure	: No data available			
Relative vapor density at 20 °C	: No data available			
Relative density	: Not applicable			
Bulk density	: 240 – 384 kg/m³			
Solubility	: Insoluble in water			
Partition coefficient n-octanol/water (Log Pow)	: No data available			
Auto-ignition temperature	: Not applicable			
Decomposition temperature	: No data available			
/iscosity, kinematic	: Not applicable			
/iscosity, dynamic	: No data available			
Explosion limits	: Not applicable			
Explosive properties	: May form combustible dust concentrations in the air.			
Oxidizing properties	: Not applicable			
9.2. Other information				
SADT	: 404°C (759.2°F)			
SECTION 40: Stability and reactivity				
SECTION 10: Stability and reactivity				
0.1. Reactivity	A national during any bandling analogical and terrates are stilled. This waterial are former symbolic			
dust/air suspensions that are ignitable under so	t particles during any handling, processing, and transfer operations. This material can form explosive me conditions.			
0.2. Chemical stability Stable under normal conditions.				
10.3. Possibility of hazardous reactions				
Hazardous polymerization will not occur. May fo	rm combusitble dust concentrations in the air.			
10.4. Conditions to avoid				
Avoid dust formation. Heat. No flames, no spark	s. Eliminate all sources of ignition.			
10.5. Incompatible materials				
Strong acids. Strong bases. Strong oxidizing ag	ents.			
10.6. Hazardous decomposition products	S			
	zardous decomposition products should not be produced.			
-				
SECTION 11: Toxicological information				
11.1. Information on toxicological effects				

ProBait Formulation for Professionals	
LD50 oral > 5000 mg/kg (Female rats)	
LD50 dermal rat	> 5000 mg/kg

GHS-US Properties	Classification
Acute toxicity (oral)	Not classified
Acute toxicity (dermal)	Not classified
Acute toxicity (inhalation)	Not classified

# Safety Data Sheet

Skin corrosion/irritation	Not classified
Serious eye damage/irritation	Causes eye irritation.
Respiratory or skin sensitization	Not classified
Germ cell mutagenicity	Not classified
Carcinogenicity	Not classified
Reproductive toxicity	May damage fertility or the unborn child.
Specific target organ toxicity (single exposure)	Not classified
Specific target organ toxicity (repeated exposure)	Not classified
Aspiration hazard	Not classified

Potential health effects Inhalation	
Acute	: Exposure to dust may cause mild respiratory irritation.
Skin	
Acute	: Exposure to dust may cause mechanical irritation.
Eye	
Acute	: May cause mild eye irritation.
Ingestion	
Acute	: Excessive concentrations of nuisance dust in the workplace may cause mechanical irritation to mucous membranes.
Mutagenicity	: Hydramethylnon is not a mutagen.
Carcinogenicity	: Hydramethylnon is not classified as a carcinogen by IARC or NTP.
Reproductive Effects	: Hydramethylnon may cause adverse effects on reproduction. Hydramethylnon does not cause birth defects.

# **SECTION 12: Ecological information**

# 12.1. Toxicity

Hydramethylnon (67485-29-4)		
LC50 Acute fish 1 0.09 mg/l Exposure time: 96h Oncorhynchus mykiss		
EC50 Acute crustacea 1 0.0544 mg/l Exposure time: 48h Mysid shrimp		
NOEC Chronic crustacea 1 > 0.000088 mg/l Exposure time: 21d Daphnia magna		
NOEC (acute)	0.01112 mg/l Exposure time: 72h Green algae	

### 12.2. Persistence and degradability

No additional information available

#### 12.3. Bioaccumulative potential

No additional information available

#### 12.4. Mobility in soil

No additional information available

2.5. Other adverse effects				
ProBait Formulation for Professionals				
Ecological Fate	This product is toxic to fish.			

# SECTION 13: Disposal considerations

13.1. Disposal methods

Product/Packaging disposal recommendations : Dispose of content and/or container in accordance with local, regional, national, and/or international regulations.

# **SECTION 14: Transport information**

	UN number	Proper Shipping Name	Transport hazard class(es)	Packing group	Environmental hazards
DOT	Not regulated	Not regulated	Not regulated	Not regulated	Not applicable

Safety Data Sheet

IMDG	UN3077	Packaging greater than 5 kg: Environmentally Hazardous Substance, Solid, N.O.S. (Hydramethylnon)	9	Ш	Marine pollutant
ΙΑΤΑ	UN3077	Packaging greater than 5 kg: Environmentally Hazardous Substance, Solid, N.O.S. (Hydramethylnon)	9	Ш	Acute aquatic toxicity

# **SECTION 15: Regulatory information**

15.1. US Federal regulations

Hydramethylnon (67485-29-4)				
Subject to reporting requirements of United Sta	tes SARA Section 313			
SARA Section 313 - Emission Reporting	1 %			
FIFRA Labelling				
EPA Registration Number	73342-1-2724			
This chemical is a pesticide product registered by the United States Environmental Protection Agency and is subject to certain labeling requirements under federal pesticide law. These requirements differ from the classification criteria and hazard information required for safety data sheets (SDS), and for workplace labels of non-pesticide chemicals. The hazard information required on the pesticide label is reproduced below. The pesticide label also includes other important information, including directions for use.				
FIFRA Signal word	Caution			
FIFRA Precautionary Statement	KEEP OUT OF REACH OF CHILDREN.			
FIFRA Hazards to Humans and Domestic Animals	Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet.			
FIFRA Environmental Hazards	This product is toxic to fish. Do not apply directly to water. Do not contaminate water when disposing of equipment washwaters. Do not apply when weather conditions favor drift from target areas. To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area. Sweeping any product that lands on a driveway, sidewalk, or street, back onto the treated area of the lawn or garden will help to prevent run off to water bodies or drainage systems.			

#### 15.2. US State regulations

No additional information available

SECTION 16: Other information				
Date of issue	: 01 May 2006			
Revision date	: 16 April 2020			
Supersedes	: 29 March 2016			

Indication of changes:

Revised Sec. 2 - Mixture classification change. Revised Sec. 15 - EPA label language.
