Hi-Yield®

Rose Fertilizer

DIRECTIONS FOR USE

This package of **HI-YIELD® ROSE FERTILIZER** was developed for people who want many richly colored Roses. **HI-YIELD® ROSE FERTILIZER** helps produce green leaves and essential new growth on which new blooms develop.

NEW PLANTS AND SINGLE PLANTINGS

Work 1 cup of **HI-YIELD® ROSE FERTILIZER** into 1/3 of the soil removed from the hole. Place mix in bottom of hole and cover with 2-3 inches of original soil forming a mound. Spread roots over mound and replace remains of original soil. Pack soil well around roots using foot pressure. Water thoroughly after applying.

ESTABLISHED PLANTS

Apply 1 cup of **HI-YIELD® ROSE FERTILIZER** per bush. Apply evenly around the bush 6-8 inches from (not on) the trunk. Work lightly into the soil and water thoroughly.

NEW PLANTS IN BEDS

Sprinkle 3 lbs. of **HI-YIELD® ROSE FERTILIZER** over 100 square feet of bed area and spade into the soil. Water thoroughly after applying.

Make the first application of **Hi-Yield® ROSE FERTILIZER** when bushes are planted or when growth first starts in the spring. Feed bushes monthly during growing season.

This product is not intended for nor recommended for container grown plants.
