

1	. Product and Company Identification					
Product Name	SENTRY Fiproguard Flea & Tick Spray for Dogs & Cats					
Synonym(s)	EPA # 87093-1-2517					
CAS #	Mixture					
Product use	Flea and tick control					
Manufacturer	Sergeant's Pet Care Products, Inc. 10077 South 134th Street Omaha, NE 68138-3710 US Phone: 1-800-224-7387 Emergency Phone: 1-800-781-4738					
CHEMTREC	1-800-424-9300					
	2. Hazards Identification					
Emergency overview	DANGER EXTREMELY FLAMMABLE LIQUID AND VAPOR. Contents under pressure. Containers may explode when heated. Harmful if absorbed through skin, if swallowed or if inhaled. Causes moderate eye irritation.					
Potential short term health effects	3					
Routes of exposure	Eye, Skin contact, Skin absorption, Inhalation, Ingestion.					
Eyes Skin	Causes moderate eye irritation.					
Inhalation	Harmful if absorbed through skin.					
Ingestion	Harmful if inhaled.					
	Harmful if swallowed. May cause stomach distress, nausea or vomiting.					
Target organs	Skin. Respiratory system. Eyes.					
Chronic effects	Prolonged or repeated exposure can cause drying, defatting and dermatitis.					
Signs and symptoms	Symptoms may include redness, edema, drying, defatting and cracking of the skin. Symptoms of overexposure may be headache, dizziness, tiredness, nausea and vomiting.					
OSHA Regulatory Status	This product is a "Hazardous Chemical" as defined by the OSHA Hazard Communication Standard, 29 CFR 1910.1200.					
Potential environmental effects	See section 12.					

3. Composition / Information on Ingredients

Ingredient(s)	CAS #	Percent
Isopropanol	67-63-0	90 - 100
Diethylene glycol monoethyl ether	111-90-0	2.5 - 10
Butylated hydroxyanisole	25013-16-5	0.1 - 1
Fipronil	120068-37-3	0.1 - 1

4. First Aid Measures

First aid procedures			
Eye contact	Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Obtain medical attention if irritation develops or persists.		
Skin contact	Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.		
Inhalation	Remove affected person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice.		

General advice

glass of water if able to swallow. DO NOT induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person. Do not puncture or incinerate container. Keep away from sources of ignition. No smoking. If you feel unwell, seek medical advice (show the label where possible).

Ensure that medical personnel are aware of the material(s) involved, and take

Call a poison control center or doctor immediately for treatment advice. Have person sip a

	Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. Show this safety data sheet to the doctor in attendance. Avoid contact with eyes and skin. Keep out of reach of children.			
	5. Fire Fighting Measures			
Flammable properties	Extremely Flammable by OSHA criteria. Vapors may travel to a source of ignition and flash			
Extinguishing media	back.			
Suitable extinguishing media	Carbon dioxide. Alcohol foam. Dry chemical.			
Unsuitable extinguishing media	Not available			
Protection of firefighters				
Specific hazards arising from the chemical	Contents under pressure. Pressurized container may explode when exposed to heat or flame. Cool containers with flooding quantities of water until well after fire is out.			
Protective equipment for firefighters	Firefighters should wear full protective clothing including self contained breathing apparatus.			
Hazardous combustion products	May include and are not limited to: Oxides of carbon.			
Explosion data				
Sensitivity to mechanical impact	Not available			
Sensitivity to static discharge	Not available			
	6. Accidental Release Measures			
Personal precautions	Keep unnecessary personnel away. Do not touch or walk through spilled material. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Keep people away from and upwind of spill/leak.			
Environmental precautions	Do not discharge into lakes, streams, ponds or public waters.			
Methods for containment	Eliminate all ignition sources (no smoking, flares, sparks, or flames in immediate area). Stop leak if you can do so without risk. Prevent entry into waterways, sewers, basements or confined areas.			
Methods for cleaning up	Before attempting clean up, refer to hazard data given above and use appropriate personal protective equipment (PPE). Never return spills in original containers for re-use. Small Spills: Absorb with non-reactive absorbent and place in suitable, covered, labeled containers. Large Spills: Wet down with water and dike for later disposal. After removal flush contaminated area thoroughly with water. Contact emergency services and supplier for advice.			
	7. Handling and Storage			
Handling	Use good industrial hygiene practices in handling this material. Avoid contact with eyes, skin and clothing. Keep away from fire, sparks, and heated surfaces. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting. Use only with adequate ventilation. Avoid breathing vapors or mists of this product. Wash thoroughly after handling.			
Storage	Store in a cool dry place inaccessible to children and pets. Keep away from fire, sparks, heated surfaces or other sources of ignition. Do not store at temperatures above 120°F (49°C).			

8. Exposure Controls / Personal Protection

Exposure limits		
Ingredient(s)	Exposure Limits	
Butylated hydroxyanisole	ACGIH-TLV	
	Not established	
	OSHA-PEL	
	Not established	
Diethylene glycol monoethyl ether	ACGIH-TLV	
	TWA: 25 ppm	
	OSHA-PEL	
	Not established	
Fipronil	ACGIH-TLV	
	Not established	
	OSHA-PEL	
	Not established	
Isopropanol	ACGIH-TLV	
	TWA: 200 ppm	
	STEL: 400 ppm	
	OSHA-PEL	
	TWA: 400 ppm	
Engineering controls	General ventilation normally adequate.	
Personal protective equipment		
Eye / face protection	Safety glasses if eye contact is possible.	
Hand protection	Rubber gloves. Confirm with a reputable supplier first.	
Skin and body protection	As required by employer code.	
Respiratory protection	Where exposure guideline levels may be exceeded, use an approved NIOSH respirator.	
General hygiene considerations	Handle in accordance with good industrial hygiene and safety practice. When using do not eat or drink. Wash hands before breaks and immediately after handling the product.	

9. Physical and Chemical Properties

Appearance	Clear, Non viscous	
Color	Colorless	
Form	Liquid	
Odor	Alcoholic.	
Odor threshold	Not available	
Physical state	Liquid	
рН	6.3	
Freezing point	Not available	
Boiling point	Not available	
Pour point	Not available	
Evaporation rate	Not available	
Flash point	53 °F (11.66 °C)	
Auto-ignition temperature	Not available	
Flammability limits in air, lower, % by volume	Not available	
Flammability limits in air, upper, % by volume	Not available	
Vapor pressure	Not available	
Vapor density	Not available	
Specific gravity	Not available	

Relative density Octanol/water coefficient Solubility (H2O) Viscosity 0.789 g/mL (6.59 lb/gal) Not available Non soluble 2.29 mPa.s

10. Stability and Reactivity

Reactivity	None known.	
Possibility of hazardous reactions	Hazardous polymerization does not occur.	
Chemical stability	Stable under recommended storage conditions.	
Conditions to avoid	Aerosol containers are unstable at temperatures above 49°C (120.2°F). Do not mix with other chemicals.	
Incompatible materials	Acids. Oxidizers.	
Hazardous decomposition products	May include and are not limited to: Oxides of carbon.
