CATERPILLAR & WEBWORM CONTROL
FOR ORGANIC GARDENING

**DIRECTIONS FOR USE**

1. **Apply as per label.** Never apply more than the recommended amount. A good application is made every 10-14 days, depending on the weather and the size of the infestation.

2. **Apply to all sides of the plant.** Apply to all sides of the plant to ensure coverage of the entire area.

3. **Apply at the first sign of infestation.** Apply at the first sign of infestation to prevent damage to the plant.

4. **Apply in the evening or early morning.** Apply in the evening or early morning to ensure maximum coverage.

5. **Apply the concentrate.** Always apply the concentrate as directed on the label.

6. **Avoid direct sunlight.** Avoid direct sunlight or hot weather conditions as it may affect the effectiveness of the product.

**WARNING**

- Use only as directed. Do not use on or near any food or livestock products.
- Do not use on or near any food or livestock products unless directed by a pest management professional or a registered applicator.
