eZseed®

GROWS ANYWHERE!® GUARANTEED!

Scott's® EZ Seed® is a revolutionary seeding mix that takes care of the seed for you, so you can grow thick, beautiful grass ANYWHERE!*

Grows in full sun

Grows in dense shade

Survives wear and tear

Helps protect seedlings against disease

3 STEPS TO SUCCESS!

1. PREP

Simply prepare the area where you want to grow grass. Remove dead grass and loosen hard soil to help tiny seedlings root.

2. APPLY

Evenly apply EZ Seed® so the area is mostly covered, but bare ground is still visible. (Use half as much for thin areas). Only apply the recommended amount so that seedlings have enough space to access water and nutrients.

3. WATER

A deep and thorough initial watering is the key to success. Gently water the area until EZ Seed® is completely saturated and no more water is being absorbed (this may take several minutes). Avoid pooling water. When EZ Seed® turns light brown, it's time to water again.

Contents made with

*Subject to Proper Care

CAUTION: TREATED SEED. This seed has been treated with Apron XL® fungicide (mefenoxam). Do not use for food, feed or oil purposes. Store away from feeds and foodstuffs. Keep out of reach of children.

PRECAUCIÓN: SEMILLA TRATADA. Esta semilla se trató con el fungicida Apron XL® (mefenoxam). No se debe usar con comestibles o alimentos para animales, ni con aceites. Almacene el producto lejos de comestibles o alimentos para animales. Mantenga fuera del alcance de los niños.

NOTICE TO FLORIDA, GEORGIA & WASHINGTON CONSUMERS

Some states require arbitration prior to maintaining certain legal actions against sellers of seed. The seed laws of Florida and Georgia, as a prerequisite to maintaining legal action based upon failure of the seeds to produce as represented, require that a sworn complaint must be filed with the Department of Agriculture accompanied by the required filing fee, and a copy of the complaint shall be sent to the seller by certified mail within such time as to permit inspection of crops, plants or trees. Further information may be obtained from a state's Department of Agriculture.

¡3 PASOS HACIA EL ÉXITO!

1. PREPARE

Simplemente prepare el área en donde quiere cultivar el césped. Elimine el césped muerto y afloje la tierra dura para ayudar a las pequeñas plántulas a echar raíces.

2. APLIQUE

Aplique EZ Seed® de manera uniforme de tal manera que la mayor parte del área esté cubierta pero conservando algo del suelo descubierto. (Use la mitad de esta cantidad en áreas de poco espesor). Sólo aplique la cantidad recomendada de tal manera que las plántulas tengan suficiente espacio para obtener agua y nutrientes.

3. RIEGUE

Un riego inicial abundante y completo es la clave del éxito. Riegue con cuidado el área hasta que el EZ Seed® esté completamente saturado y no se absorba más agua (esto puede tomar varios minutos). Evite que el agua se encharque. Deberá regar el EZ Seed® nuevamente cuando éste se vuelva café claro.

HELPFUL TIPS

- Fall and Spring are the best times to plant EZ Seed® because the seed germinates best when daytime temperatures are between 60°F and 80°F.
- Keep kids, pets, foot traffic and lawn mowers off the newly planted seedlings until the grass is 3 inches high.
- Do not apply weed control products until grass is well established (mowed at least 4 times). Additionally, if you recently used a weed control product, refer to the product instructions to determine how soon you can plant grass seed.
- Feed your grass every 6-8 weeks with Scotts® Turf Builder® Lawn Food to strengthen and help protect your lawn against future problems.

Scotts No-Quibble Guarantee®

If for any reason you, the consumer, are not satisfied after using this product, you are entitled to get your money back. Simply send us original evidence of purchase and we will mail you a refund check promptly.

Freshness Matters

Scotts goes to great lengths to bring you the freshest seed available, so you can grow your own thick, beautiful lawn. For best results, always use fresh product. After opening, plant within the season. Store in a cool, dry place, out of reach of children.
