- New 66.5 cc engine to generate a fan air volume of max. 824 cfm for total plant penetration
- Aluminum crankcase and high quality engine components for increased power output even under high temperature operating conditions
- Increased engine performance converts to higher misting performance
- Improved fuel efficiency and reduced emissions with modern engine technology and catalytic converter
- Large 0.37 gallon capacity fuel tank combined with low fuel consumption allow long operating periods
- Easy starting, fuel pump assisted
- Effective vibration dampening
- Single multi-function operating handle
- Efficient air filtering system, easy to maintain
- Comfortable, padded carrying straps
- Compact size, low weight
