

# Spectre 2 SC

## Insecticide

Spectre 2 SC insecticide is powered by 21.45% chlorfenapyr that kills ants, cockroaches and bed bugs and provides long lasting residual control. Since Spectre 2 SC is a virtually odorless non-repellent insecticide, insects can't sense it to avoid it. Pests come in contact with it and then spread it to others, controlling pests that never came in contact with the product.

### Use Sites

For use inside residential structures, commercial areas (including food handling establishments, food service, storage, preparation, and processing areas), meat, poultry and egg plants, institutional areas and warehousing establishments.

### Spectre 2 SC Profile

**Active Ingredients:** 21.45% chlorfenapyr
