Spinosad Soap

Contains: Potassium Salts of Fatty Acid 18.8%, Spinosad .1%

Spinosad and Insecticidal Soap combined, creating a product with GREAT contact killing properties and is really FAST, working within minutes!

This is one of the BEST Spider Mite controls and also kills Beetles, nearly on contact. Including Japanese Beetle and Colorado Potato Beetles.

Still kills caterpillars and leafminers. Apply at 7 day intervals, as needed.

Avoid spraying stressed plants and spray in the morning or overcast day.

Always Read and Follow Label Directions
