

# Stryker® 5-25

## INSECTICIDE CONCENTRATE

Stryker® 5-25 is a new addition to the CSI Vector product portfolio. Stryker® 5-25 is a water based, Micro-Emulsion blend of Pyrethrin and PBO. This combination product has the right ratio of active ingredients to achieve excellent control of mosquitos, gnats, midges and other flying insects. Stryker 5-25 is the ideal rotational product for use in residential or barn misting systems and public health mosquito control. It provides quick knockdown with a short residual and no phytotoxicity. **Stryker® 5-25 is approved for use on over 60 insects and 60 use sites.**

- Multi-purpose quick kill insecticide
- For use in and around residential, commercial and food handling establishments
- Used for adult mosquito control, including those that transmit WNV, Chikungunya and Zika viruses
- May be applied through misting systems, mechanical aerosol or ULV generators
- Approved for use on livestock, including cattle, poultry and swine
- One 64 oz bottle makes 55 gallons for mosquito misting systems
