Hi-Yield®

Super Phosphate

HI-YIELD® SUPER PHOSPHATE is an inexpensive and effective source of Phosphorus where applications of Phosphorus are needed. Quick acting **HI-YIELD® SUPER PHOSPHATE** helps to enhance growth and color, and helps to strengthen stems and increase blooms.

DIRECTIONS FOR USE

Mix several tablespoonsful with soil when planting bulbs or small plants. For row planting, mix 4 lbs. to each 50 ft. evenly with loose soil in bottom of trench.

(NOTE: 1 lb. is approximately 1 ½ cups.)

Iris, Crape Myrtle, Lilacs and Peonies should have an application of **HI-YIELD® SUPER PHOSPHATE** either in January or February to strengthen stems and increase blooms. A light covering on the ground 6 inches away from stems, dug in.

Chrysanthemums and Dahlias are heavy feeders. Give them a sprinkling of **HI-YIELD® SUPER PHOSPHATE** dug in lightly, roots are near the surface.

This product is not intended for nor recommended for container grown plants.
