## Product #8520

### TechNiche EVAPORATIVE COOLING HORSE NECK WRAP

*Powered by HyperKewl™*

- Secured to the horse with hook and loop straps and an attachment to the horse's halter
- Provides 5-10 hours of cooling relief per soaking
- Comfortable, quilted nylon exterior with HyperKewl™ fabric interior, water repellent nylon liner, and black poly-cotton trim
- Should not be used when grazing
- Sizes: S, M, L
- Colors: Blue, Silver

## POWERED BY

# HYPERKEWL™

Our unique HyperKewl™ fabric absorbs, stores and releases water within the multi-layered structure. Water is "released" through evaporation, energy is consumed, and a chill effect is created.

1. Submerge the item in water for 1-2 minutes
2. Gently squeeze out any excess water
3. Wipe dry and the item is ready to be used

The item will remain activated for 5-10 hours and can be re-hydrated by repeating these simple steps.
