

traprite

rodent preferred
design

SOUND

Studies show that rodents prefer cardboard due to its sound dampening qualities.

WHISKERS

Our unique tunnel shape allows rodent whiskers to touch both sides of the box, relaxing them and increasing the chance that they will enter.

TEMPERATURE

Cardboard is preferred by rodents in hot or cold environments, increasing rodent acceptance and improving trapping results

IMPROVE YOUR TRAPPING RESULTS EVERYWHERE.

RESIDENTIAL. COMMERCIAL. SCHOOLS. HEALTHCARE. FOOD FACILITIES.

ANSTAR

(800) 992-6339
www.anstarproducts.com

Disposable, economical and made from 41% recycled material.

TRAP RODENTS ON THEIR FIRST VISIT. NO RODENTICIDES. NO DELAYS WHEN YOU USE TRAPRITE.

FEATURES

- Increased safety
- Economical
- Dampens sound
- Preferred texture
- Consistent temperature
- Non-rodenticide

SNAP TRAP

GLUE BOARD

Increase safety in sensitive locations.

By trapping rodents inside the traprite station using snap traps and glue boards, you contain the biohazard in a economical and disposable station. Use traprite stations in sensitive areas where rodenticides are restricted or prohibited, such as schools, hospitals, food facilities and residential areas.

2156 MS

4.5"D x 2.5"H x 9"W 50/cs 8lb.
Holds mouse glue board and up to three mouse snap traps.

2154 RS

6"D x 3"H x 10.25"W 50/cs 13lb.
Holds rat glue board.

2152 RST

8"D x 4.75"H x 11"W 50/cs 19lb.
Holds rat glue board and up to three rat snap traps.

2158 MS TUNNEL

2.5"D x 2.5"H x 12"W 50/cs 8lb.
Holds mouse glue board and up to two mouse snap traps.

2160 RST TUNNEL

4"D x 4.5"H x 22.5"W 50/cs 13lb.
Holds rat glue board and up to two rat snap traps.

2159 GLUE BOARD

4"D x 8"W 72/cs 3lb.
For the 2156 and the 2158. Perforated center for multiple uses.
