

# How to Use Temprid Dust

## Step by Step Guide

### Step 1

- Locate the side tabs on the lid of the product and pull upwards

### Step 2

- Grasp the bottle and pull side tabs up firmly.
- The cap should open and unfold as illustrated in the picture.
- Unscrew the red cap from the unfolded portion of the cap.
- Carefully remove the red cap.

### Step 3

- Lift and remove the internal seal tab. This will expose the product.

### Step 4

- Replace the red cap and press down until it snaps securely into place.

### Step 5

- Position the red cap onto the unfolded section and screw it tightly to close the product.
