VETERINARIAN FORMULATED

THE
MISSING LINK®

HAPPIER & BETTER

"FOR MY
**SKIN &
COAT"**

THE ORIGINAL SUPERFOOD SUPPLEMENT

SKIN & COAT

More than 20 years ago, we set out to fill the nutritional void left by most processed, commercial pet foods. The result? A veterinarian-formulated superfood supplement created to add lovin' life nutrition to a fur kid's bowl. We guess you could say The Missing Link® truly is the ORIGINAL. With omega 3 and 6 fatty acids and dietary fiber, say yes to superfood nutrition and no to preservatives and artificial colorings and flavors. And, **The Missing Link® Skin & Coat** doesn't just help your fur kiddo live the "happier & better" life every pet deserves, it supports skin and coat health, energy levels, immune system and muscle, tendon and ligament function too.
