FORMERLY EQUINE FORMULA

ULTIMATE EQUINE SKIN & COAT

The Missing Link[®] Ultimate Equine Skin & Coat targets the nutritional gap between what nature provides and what is available in commercial foods.

Our proprietary, patented cold processing method ensures the freshest delivery of precious Omega 3 fatty acids.

This unique synergistic blend of the highest quality ingredients combines:

- Balanced Omega 3 & 6 to maintain healthy skin & coat.
- Omega fatty acids help the absorption of fat soluble vitamins which nutritionally support: intercellular health, energy levels, the immune system, and muscle, tendon and ligament function.
- Nutrients work together to grow strong, tough hooves.
- Dietary fiber to promote a healthy digestive system.
- Phyto (plant) nutrients to support general health and nutrition.

- NO PRESERVATIVES
- NO ARTIFICIAL COLORINGS OR FLAVORS
