ULTRA SPREAD SELECT™

ADJUVANT

PRINCIPAL FUNCTIONING AGENTS

Silicone and other nonionic surfactants and humectant 100.0%
Total 100.0%

NONIONIC ORGANOSILICONE SURFACTANT

KEEP OUT OF REACH OF CHILDREN WARNING

Avoid contact with skin, eyes or clothing. Do not take internally. Do not eat, drink, smoke or chew gum while using this product. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco. In addition, follow precautionary statements on all products used with this material. Clean affected clothing, shoes, and protective equipment before reuse. Personal Protective Equipment: Wear chemical-resistant eyewear and gloves, long-sleeve shirt and pants and shoes plus socks.

FIRST AID	
IF SWALLOWED:	• Have person sip a glass of water if able to swallow. • Do not induce vomiting unless told to do so by a poison control center or doctor. • Do not give anything by mouth to an unconscious person.
IF ON SKIN OR CLOTHING:	• Take off contaminated clothing. • Rinse skin immediately with plenty of water for 15-20 minutes.
IF INHALED:	• Move person to fresh air. • If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth to mouth if possible.
IF IN EYES:	• Hold eye open and rinse slowly and gently with water for 15-20 minutes. • Remove contact lenses if present, after the first 5 minutes, then continue rinsing eye.
Call a poison control center or doctor immediately for treatment advice. Have the product container with you when calling a poison control center or doctor, or going for treatment.

ULTRA SPREAD SELECT™

ADJUVANT

GENERAL INFORMATION

Ultra Spread SELECT is a nonionic organosilicone wetting agent that is effective with post emergent and non-selective herbicides. Ultra Spread SELECT organosilicone chemistry allows for enhanced wetting and absorption of herbicides into plant, leaf and stem surfaces. Ultra Spread SELECT may be used with most pesticides and fertilizer products as directed on this label. Observe initial application to insure thorough coverage without excessive runoff of the spray. Triple Max SELECT includes humectants that hinder the evaporation of spray droplets, increasing the length of time active ingredients are available to move into the plant interior.

DIRECTIONS FOR USE

Ultra Spread SELECT when directed for use with pesticides and fertilizers is effective when applied on crops such as alfalfa, corn, cotton, oats, peanuts, rice, sorghum, soybeans, sugar cane, wheat, lawns, turf, greens and tees.

USE RATES

Active Pesticide	USE RATE Per 100 Gallons of Spray Solution
Ground	12 to 64 ounces
Aerial	12 to 32 ounces
Aquatic	8 to 32 ounces
General Wetter/Spreader	6 to 12 ounces

NOTE: The application rates on this label are based on pesticide labels that recommend the use of a nonionic surfactant. Rates of this product may be increased or decreased for optimum results. Follow pesticide labeling for proper recommendations. Before using Ultra Spread SELECT where a nonionic surfactant may not be recommended the user or applicator advisor must have experience with the combination or must have conducted a phytotoxicity trial to ensure safety and jar testing to ensure compatibility.

MIXING

Prior to pesticide application, clean mixing and application equipment according to pesticide label directions. To minimize foaming fill spray tank 2/3 or 3/4 full of water and begin agitation. If foaming is anticipated the addition of an anti-foaming agent should be added before pesticides, nutrients, or Ultra Spread SELECT. If foam is still not properly controlled, more anti-foaming agent may be added later.

Add pesticides and/or fertilizers as directed by label or in the following sequence:

A.) Micronutrients and fertilizers, B.) Dry flowables and dispersible granules, C.) Flowables, D.) Water soluble pesticides, E.) Emulsifiable concentrates. Continue agitation and add Ultra Spread SELECT, when completed, reduce agitation and allow to mix for 1 to 2 minutes. While under minimal agitation, continue filling tank and allow to mix for 10-15 minutes prior to application. NOTE: For optimum results, spray mixes containing Ultra Spread SELECT should be applied within 36 hours.

STORAGE AND DISPOSAL

Storage: Store in a cool, dry place. Store in original container only. Do not add anything to the container. Keep container tightly sealed when not in use. Do not store near fire, flame or other potential sources of ignition. Do not contaminate water, food or feed by storage or disposal of this product. For optimal storage, store between 40 and 90 F.

Disposal: Do not reuse empty container. Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal if allowed by law. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit the ACRC web page at www.acrecycle.org. Decontaminated containers and materials must be disposed of in a manner allowed by local, state and federal laws and regulations.

WARRANTY STATEMENT

Seller warrants that this product conforms to its chemical description and is reasonably fit for the purpose stated on the label, when used in accordance with directions under normal conditions of use, but neither this warranty nor any other warranty of merchantability or fitness for a particular purpose, expressed or implied, extends to the use of this product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to the seller, and buyer assumes the risk of any such use.
