

Thermo Neutral-Friendly Technology

Thermal neutral fabrics help heat to dissipate resulting in a cooler sleep environment. A real plus for mattresses manufactured from Visco foam.

Bed Bug, Dust Mite & Allergen Proof

HealthySleep Encasements are a preventative measure that reduce exposure to pesticides and dust mite allergens that cause chronic health issues.

Water Proof & Breathable

Advanced moisture-wicking fabric with enhanced airflow technology repels stains without changing the feel of the mattress.

Bug Guard Closure System

Tested to be 100% effective by certified entomological laboratory Bed Guard™ Closure System is Bed Bug entry and escape proof.

Immunology Lab Tested and proven to virtually eliminate the transfer of allergens.

Interlock Fabric Encasement Featuring Polyurethane Backing on top & sides.

Patent #US008156588B2

Silpure Treatment

Antimicrobial protection to guard against odor causing bacteria. Fabrics treated with Silpure are protected from perspiration odors by controlling bacteria that cause the problem. This promise of lasting freshness is a powerful selling point.
