

# T25 UV Fly Trap

---

**Low Electric consumption driven by DC 12V/2A drive. No Danger of Electric Shock.(Adaptor-Residual Current Device) Reduce the electrical bill with less than 20W Power per 1hour. The Product operates automatically by the optical sensor. It works when the sun rises and stops at sunset. Using Noise reduction plastic fan, it is safe and quiet. Easy to move and install. It is light weight and easy to remove the collecting net.**

## SPECIFICATIONS

- **Model : T25**
  - **Dimensions :12 x 13 (Inches)**
  - **Consumption: Less than 20W/hr**
  - **Lamp LED : LED: DC 12V / 3W**
  - **Auto Control : Input 100V ~ 240V, Driving Power DC 12V (No danger of short circuit, electric shock, and lightning)**
-
