

Vendetta® 360

All-new Vendetta® 360 attracts and kills cockroaches where they hide and live. Containing NyGuard® IGR, Vendetta® 360 combines two modes of action for maximum control. Vendetta® 360 was designed to be used as a rotational bait with Vendetta®, Vendetta® Plus and Vendetta Nitro® Cockroach Gel Baits. This advanced roach defense system is effective and easy to use.

- Kills cockroaches (including German and American)
- Contains NyGuard® IGR
- Dual modes of action
- For use in commercial, industrial, and residential areas
- Idea for use in sensitive accounts
- Advanced Roach Defense System
- Use as rotational bait with Vendetta®, Vendetta® Plus, Vendetta Nitro® or other products that control the same pests
- For use in commercial, industrial and residential areas

Product Specifications

Signal Word	None
Packaging	4 tubes per clamshell (5 per case)
EPA Registration Number	1021-2853
Food Handling	For use in food and non-food areas
Stability of Undiluted Product	Not applicable – gel bait
Stability of Diluted Product	Not applicable – gel bait
Appearance	Brown colored paste
Odor	Slight odor
Active Ingredients	Clothianidin, Pyriproxyfen
Flammability	Not considered highly flammable
Mode of Action	Group 4A and 7C insecticide
Class of Chemistry	Neonicotinoid, juvenile hormone mimic
Respirator Required	Not required
Mix or Dilute in	Apply alone – do not use residual repellent insecticide sprays on or near Vendetta® 360
Activity	Ingestion
Shelf Life	3 years or more if stored at room temperature

Use Areas

Indoors in Food and Non-food Areas in:
Residential areas such as living areas, kitchens, and bathrooms
Commercial and industrial areas such as warehouses, restaurants, and food processing and meat packing plants

In Transportation Equipment

Buses
Aircraft
Trains
Ships

Method of Application

- Spot treatments
- Crack and crevice treatments

Best Practices when using Vendetta® 360

Use Vendetta® 360 as part of an IPM program

Use Vendetta® 360 as part of an Integrated Pest Management (IPM) program. Rotation of Vendetta® 360 with other cockroach baits such as Vendetta®, Vendetta® Plus, and Vendetta Nitro® is recommended over the course of the year to delay the development of additional forms of behavioral resistance.

Bait placement

For best results, focus bait placements in or near cracks and crevices and near harborage areas.

Application rates

Application type	Specified grams of bait per 100 sq. ft.
Maintenance	0.25 – 0.50 grams
Light	1 – 3 grams
Heavy or clean out	6 – 12 grams

Do not apply Vendetta® 360:

- To areas that have been recently sprayed with a repellent insecticide to prevent the bait from becoming repellent – cross-contamination of the bait can negatively impact its palatability.
- To greasy or dusty surfaces – the bait adheres better to clean surfaces.
- In locations that are routinely washed – the bait will be removed by washing.
- In locations where routine cleaning operations may transfer diluted bait to food or food-preparation surfaces.
- In or on electrical equipment where a possibility of shock hazard exists.

Refer to label for full list of use restrictions.

Avoid placement on fabrics

Avoid placing Vendetta® 360 on textiles, fabrics, or carpets since it may stain some absorbent materials.

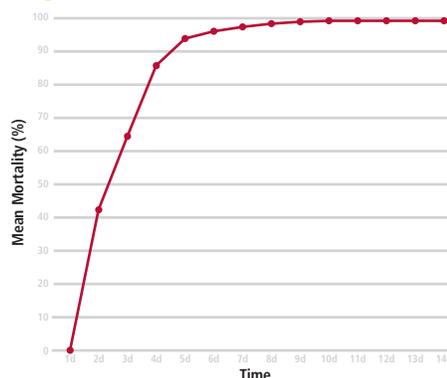

Key Pests Killed

Cockroaches (including German and American)

Always read and follow label directions.
