

AccuLytes™

Complete Electrolyte Formula

AccuLytes™ complete electrolyte formula replaces crucial electrolytes lost through sweat. AccuLytes™ formula is perfect for horses in need of electrolyte replenishment from the effects of heavy training, exercise, competition and trailering. The proper electrolyte replenishment is critical for your horse since intense exercise can cause dehydration and an electrolyte imbalance can adversely affect your horse's performance. Formulated by an equine nutritionist, AccuLytes™ electrolyte encourages healthy water intake year round and under stressful situations.
