EPA Est. No. 11623-GA-2 or 33595-MO-4

KEEP OUT OF REACH OF CHILDREN
CAUTION

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION

Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet.

Personal Protective Equipment (PPE): Applicators and other handlers must wear: • Long-sleeve shirt, • Long pants, • Shoes and socks

User Safety Requirements: Follow manufacturer’s instructions for cleaning/maintaining PPE. If no such instructions for washables exist, use detergent and hot water. Keep and wash PPE separately from other laundry. Discard clothing and other absorbent material that have been drenched or heavily contaminated with the product’s concentrate. Do not reuse them.

User Safety Recommendations: Remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing. Remove PPE immediately after handling this product. As soon as possible, wash thoroughly and change into clean clothing.

SPECIMEN LABEL

FIRST AID	
IF IN EYES	<ul style="list-style-type: none"> • Hold eye open and rinse slowly and gently with water for 15-20 minutes. • Remove contact lenses, if present, after the first 5 minutes, then continue rinsing. • Call a poison control center or doctor for treatment advice.
IF SWALLOWED	<ul style="list-style-type: none"> • Immediately call a poison control center or doctor. • Do not induce vomiting unless told to do so by a poison control center or doctor. • Do not give any liquid to the person. • Do not give anything by mouth to an unconscious person.
NOTE TO PHYSICIAN: Contains Petroleum Distillates - vomiting may cause aspiration pneumonia.	
Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also call 1-800-248-7763 for emergency medical treatment information.	

ENVIRONMENTAL HAZARDS

This product is extremely toxic to aquatic organisms, including fish and invertebrates. Do not apply directly to or near water. Drift and runoff may be hazardous to fish in water adjacent to treated areas. Do not contaminate water when disposing

of equipment/product. See Directions for Use for additional precautions and requirements. This product is highly toxic to bees exposed to direct treatment on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds while bees are actively visiting the area.

PHYSICAL OR CHEMICAL HAZARDS

Flammable. Contents under pressure. Keep away from heat, sparks, and open flame. Do not puncture or incinerate container. Exposure to temperatures above 130° F may cause bursting.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

READ THE ENTIRE LABEL PRIOR TO USE. USE STRICTLY IN ACCORDANCE WITH ALL LABEL PRECAUTIONS AND DIRECTIONS.

USE RESTRICTIONS

Do not enter or allow others to enter the treated area until sprays have dried. Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. Do not make applications during rain. Not for use in, around or near floor drains or in sewers. To apply at the maximum rate, spray for about 2 seconds to cover a space of 1 sq ft.

Use **Zoëcon® Wasp-X® Wasp & Hornet Spray** to kill wasps, hornets, yellow jackets and other pests outdoors and indoors. Indoor locations would be identified as attics, steeples, mechanical rooms, barns, sheds, non-food/non-feed warehouses, garages, and carports. Do not apply indoors in habitable portions (areas) of domestic/residential dwellings, i.e., homes, residences, apartments, hotels, etc. **DO NOT TREAT ANIMALS WITH THIS PRODUCT.** Remove livestock, pets, and birds before spraying indoors.

Prior to treatment, shake can well, hold can upright and, stand upwind at a safe distance from nests, and spray away from self and other persons. This product is generally non-staining, but test product in a small, inconspicuous area to determine if staining potential exists.

WASPS, HORNETS, AND YELLOW JACKETS

Wasps – Spray nest until thoroughly wet. Wasps on the nest will fall quickly to the ground, wasps returning to the nest will be killed by the residual action of the spray. Wait 24 hours before removing nest.

Hornets – Hornets build nests under eaves, in trees, shrubs, and ivy, and in sheltered spaces of buildings. It is best to wait until dusk or early morning to treat as hornets are less active at that time. Locate entrance hole in the nest, and thoroughly spray the entrance hole. Spraying the outside of the nest and not the entrance hole will not have the desired effect and may cause the hornets to attack. For best results for large nests, repeat application.

Yellow Jackets – Yellow jackets typically build nests in the ground or in tree stumps, landscape timbers, and railroad ties. Locate entrance holes, note that there may be more than one. Wait until dusk or early morning to spray. Spray entrances thoroughly. For best results for large nests, repeat application.

OTHER OUTDOOR PESTS

Tent Caterpillars – Treat webs in late afternoon when caterpillars return and spray tent until soaked.

Ants – Spray ants, building foundations, and locations where ants are entering a building. Directly hit as many ants as possible with the spray.

Cockroaches – Treat for cockroaches at locations where they live and potential entry points, such as areas where outside plumbing enters the building and cracks or crevices in the foundation. Spray cockroaches directly when seen.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

STORAGE

Do not store near heat or open flame. Store in cool, dry area away from children.

DISPOSAL

Do not puncture or incinerate! **If empty:** Place in trash or offer for recycling, if available. **If partly filled:** Call your local solid waste agency for disposal instructions.

Always read the label before using this product.

For more information or in case of emergency, call **1-800-248-7763**.
