

The Weed Razer family of tools is designed to help you control your weed problems in three easy steps:

- 1 Harvest
- 2 Remove
- 3 Maintain

Controlling aquatic vegetation can be a difficult problem. The five tools available in the Weed Razer system - Weed Razer, Weed Raker, Beach Rake, Weed Razer Pro and NutrE-razer provide options to make the solution a simple one.

“The NutrE-razer worked great, it cleared up my lake and I’ll be ordering another soon.
Mike Lawrence, Iowa - 2010

I highly recommend your Weed Razer to anyone looking for an excellent tool for removing weeds from a lakefront.
Greg, Wisconsin

My Lake was covered with slime and within 5 days of adding NutrE-razer 3/4 of it was gone and it just kept working.
Kyle, Louisiana - 2010

No Shirt, No Shoes, No Problems...No weeds!

Thanks to Weed Razer, clearing weeds and debris from your lake or pond is a day at the beach. There has never been a more uniquely designed and efficient tool made for cutting submerged aquatic vegetation.

It's easy, it's effective, it's amazing...it's Weed Razer.

Tools for controlling aquatic vegetation

Weed Razer
Tools for controlling aquatic vegetation

Getting rid of shoreline weeds is as easy as 1-2-3

In the fight against shoreline weeds, here's your edge

1. Throw Weed Razer out and over area to be cleared

2. Pull it back in using short hard jerking motions

3. Repeat as needed

- 1) It's Easy
- 2) It's Effective
- 3) It's Amazing

But don't take our word for it!

“We just used our Weed Razer for the first time and I think I am in love! We have a lake cottage and I think that everyone that lives on the lake and fights the weeds needs to own one.
Marcie, Indiana

We received our Weed Razer yesterday and went right to work. It is AMAZING! One of the best items I ever bought. WOW! Thank you, thank you, thank you.
Steven Reichel, Florida

1 Weed Razer

Clear your lake or pond of weeds in minutes

As easy as 1, 2, 3

1. Give it a toss
2. Let it sink
3. Pull it in

The Weed Razer is easy to use. Simply toss it from your dock, shore or boat. It weighs just 8 pounds; it's light enough to toss 30 feet or more, but easily sinks to the bottom. The razor sharp edges slice effortlessly through most types of aquatic vegetation.

- Cuts in deep or shallow water
- Works at the base of the weeds
- Offers little to no resistance by slicing weeds rather than simply dragging them
- Cuts up to 4' wide path each toss

Caution: Blades are very sharp! Always keep the blade covers on Weed Razer when not in use.

Know the rules: Before using Weed Razer be certain to check with local or state authorities

Stainless steel blades

Includes 25' rope and hand sharpener

Clear a path up to 4 feet wide and 30 feet long with each toss

The Weed Razer is the BEST CHOICE

for cutting long or short weeds and - with some additional work - it will even work on cattails

Using Weed Razer is easy.

1. Give Weed Razer a toss

2. Let Weed Razer sink in

3. Pull Weed Razer out

1 Weed Razer Pro

There is wide interest in the tool offering the widest cutting path of any tool on the market!

No. 1 Choice

for cutting stubborn pond and lake weeds like cattails, wild rice, bulrush, etc.

Its adjustable blades make the Weed Razer Pro a unique aquatic vegetation cutter and one capable of effectively and efficiently clearing your lake or pond in minutes.

It is a mighty mite, weighing in at just 9 lbs. The Weed Razer Pro is nimble enough to toss as far as 30 feet from any dock, shore or boat. But, make no mistake; it's a heavyweight fighter when clearing paths up to 62" wide.

- Cut with 7 different angles to match the density and type of vegetation you are cutting
- Clear aquatic vegetation in narrow channels or large areas in a short time
- Harvest a variety of emerged and submerged aquatic weeds, including cattails, bulrush, wild rice, etc.
- Slice at the base of the weed with very little resistance. It slices weeds rather than dragging them

After you are done, simply fold the two blades and store, no disassembly is required.

Weed Razer Pro comes fully assembled.

Caution: Blades are very sharp! Always keep the blade covers on Weed Razer when not in use.

Expands up to 62" wide

Stainless steel blades

Weed Razer Pro comes fully assembled

After you are done, simply fold the two blades and store.

Includes 25' rope and hand sharpener

Easily expands up to 62" wide

2 Weed Raker

The LONGEST, WIDEST, Easiest to assemble ALL-IN-ONE Digging Rake

11 feet long and 37 inches wide

Includes 43 feet of floating rope

Pulls weeds in from 50+ feet away!

Rake weeded swimming area and pull in loose weeds. Rake bottom to pull in roots of lake weeds

The weeds have been cut, now you need to get them out of the water and dig up their roots. The Weed Raker is the perfect match for the Weed Razer.

The Weed Raker collects large amounts of weeds with its super sized rake head. Fill the hollow rake head down with weighted material for maximum sediment penetration and drag out the roots of your weed problem.

3 Beach Rake

Multipurpose rake perfect for land and water use!

Introducing a professional-grade aluminum rake to make any kind of clearing duty a day at the beach.

- Clearing debris from you beach and grooming beach sand
- Removing stones and other debris from your lake bottom
- Spreading landscaping material like fine rock and wood chips
- Maintaining golf course bunkers
- Removal of floating aquatic vegetation and filamentous algae
- Removal of decaying organic matter from your lake and pond bottom
- Uprooting weeds

Handles any kind of job on land or in water!

Comes with an 11 foot handle, 25 feet of rope and a float that attaches to the rake head

Easy to use

Stand in one spot and keep your entire swimming area weed free

2 Nutre-razer

Removes excess nutrients from the water

Nutre-razer's specially selected strains of naturally-occurring microbes and growth factors which reduce the level of unwanted nutrients and muck while increasing the health of a pond in 4 important ways:

- Introducing bacteria that effectively consumes these nutrients
- Stimulates the growth of bacteria already in your pond that break down organic matter
- Removing excess nutrients from the water column
- Providing an additional food source for fish and other pond life

This is a non-chemical approach which involves living organisms (microbes) feeding off of the excess nutrients that would otherwise be available for plant growth. Nutre-razer's microbes are a concentrated blend of naturally occurring bacteria and enzymes that rapidly biodegrade sludge, improve the water quality, decrease suspended particulate matter and solids, and control odor if used correctly in the proper blend for the pond.

Nutre-razer and its packing are safe and nontoxic to humans and animals. (Including fish and other aquatic species) No mixing required - just toss the packet in the water.
