EASY APPLICATION INSTRUCTIONS

APPLY USING A ROTARY SPREADER
RECOMMENDED SPREADER SETTING IS 60%.

Cover the area where wild hog damage has been observed and/or is occurring. Extend the coverage to about thirty (30) feet around and beyond the damaged area.

FOR GARDENS & BEDS: Hand sprinkle within damaged garden plots & beds. Locate entry trails if possible. Apply in a band across the trail where it enters an area to be protected. Also, apply on the trail for 30 feet back from the entrance using a 4-foot wide band.
