Winterizer for Established Lawns 25-0-6

Fall feeding is one of the most critical feeding times. A healthy and stable plant can endure the hardship of winter better than a weak plant. Winterizer builds winter hardiness, stem strength and disease resistance in lawns, trees and shrubs.

Application:

- Lawns: 20 lbs per 5,000 sq ft
- Trees: 1 lb per inch of trunk diameter around drip line
- Shrubs: 1 cup per 3 ft of height around drip line

Always Read and Follow Label Directions
