HOW TO KILL FLEAS & TICKS

For immediate relief, apply to pets and home as directed below. Spray all pets, bedding, furniture, and flooring, including carpet, to eliminate flea and tick life cycle. For best results, treat outdoor areas with Wondercide Flea & Tick for Yard + Garden.

HOW TO PREVENT FLEAS & TICKS

Use as needed for ongoing protection. Apply to pets before visiting areas where pests may be present. Spray as often as desired to freshen pets, bedding, upholstery, and carpet. For best results, treat outdoor areas with Wondercide Flea & Tick for Yard + Garden year round.

HOW TO APPLY **SPRAY & PLAY!™**

Shake before use.

PETS Rub coat in opposite direction and mist body, belly, legs, and tail. Spray onto hands or cloth to apply to face and ears. Do not soak pets. Test a small area on back of the neck 1 hour prior to full body application.

HOME From a distance of 8-12 inches, spray pet bedding and play areas, furniture, and flooring. Test a small area on surfaces prior to full application.

PRECAUTIONARY STATEMENTS In case of contact with eyes, flush with water. Not for use on birds, snakes, aquatic environments, plants, or pets with compromised health. Surfaces may be slippery when wet.

Sensitivity may occur after use of any product. If signs of sensitivity occur, bathe pet with mild soap and discontinue use.

OUR STORY

When you love someone, you do everything in your power to protect them. I thought I was keeping Luna safe by using commonly recommended flea and tick control. But when she experienced devastating side effects ranging from skin issues to organ failure, I knew there had to be a better way.

I founded Wondercide to protect pets, families, and homes without harsh chemicals. Today, our natural products protect packs of every kind, everywhere.
