

Xcluder™ Garage Door Rodent Shield Installation Instructions

Item# 162940, 162942, 162944, 162946, 162948

Thank you for your purchase of an Xcluder™ Garage Door Rodent Shield.

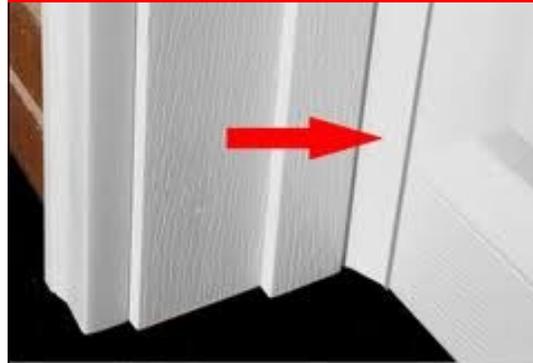

Installation Instructions:

Install the Xcluder Garage Door Rodent Shield at the bottom of the weather stripping on both sides of your garage door.

The Xcluder Garage Door Rodent Shield should be installed so that the shield is on the inside of the weather stripping facing the garage door.

1. Wipe the inside of the weather stripping with the included alcohol pad. Ensure the surface is clean, dry and free of dirt and debris before attaching the Garage Door Rodent Shield.
2. Peel off the protective backing off the Garage Door Rodent Shield and affix it to the inside of the weather stripping.
3. The Rodent Shield should be flush with the bottom and side edges of the weather stripping.

STOP: Do not install on the outside of the weather stripping

Install Rodent Shield on the inside of the weather strip as shown below.

Version BG1, 4-27-2016
