

## Xcluder® X-Plate™

*Universal Escutcheon Plate*

### Why X-Plate:

- ✓ Adjusts to fit pipes from 0.5" up to 3" OD
- ✓ Avoid extra trips—always have the right size on hand
- ✓ Reduce inventory—only need to stock one size
- ✓ Installs on existing pipes— No disconnect required
- ✓ Quick, easy install—only requires a screwdriver
- ✓ Unique Anchoring System—Keeps X-Plate securely in place
- ✓ Install with included Xcluder Fabric or sealant, to prevent roaches, ants, and air leakage
- ✓ Made in U.S.A.
- ✓ Patent Pending

Unprotected wall openings for pipes and conduit are a common pathway for rodents and other pests.

Traditional escutcheon plates require stocking multiple sizes to accommodate different pipes and can be hard to secure in place making them easy for rodents to push out of the way. X-Plate accommodates most common pipe sizes and our unique anchoring system ensures it stays firmly in place.

### Infinitely adjustable to fit multiple sizes and types of pipes from .5" up to 3" outside diameter

**.5" Copper**

**1.5" Galvanized**

**3" Cast Iron**

### X-Plate Features

- ◆ Adjustable - Fits pipes from 0.5" to 3" outside diameter
- ◆ Adjusts in place, no pre-measuring required
