

GreenWay is committed to solving pest problems by offering alternatives to traditional pesticides.

Directions for Use:

1. Simply remove the red protective strip from the back side of the window fly strip.
2. Press the sticky side to the window.
3. Peel off the front wider glue strip to expose the surface of the glue trap.
4. Remove protective paper from glue surface. Now the trap is ready for use.

Replace after 2 months or when trap is full. Store unopened traps in a cool, dry area.

Incluye instrucciones en Español.
