#### ORNAMENTALS & FLOWERS

This product can be applied just before planting or after plants emerge. Apply 0.5\* to 1 lb. evenly over each 500 sq. ft. area. Repeat if there are signs of renewed insect activity.

#### LAWNS

Apply this product when insect activity or damage is first observed (lawn thins, brown spots appear, or moths fly up from the grass when mowed). Spread this product uniformly over lawn at the rates listed. Water-in product after application. Do not use any other weed, disease, or insect control products for at least one week after application. For best results and to prevent further damage, treat the entire lawn, not just the browned areas. Repeat application if there are signs of renewed insect activity.

NOTE: Food utensils such as tablespoons/teaspoons must not be used for food purposes after use in measuring pesticides.
