Magnesium (Mg)	1.40%
1.33% Water Insoluble Magnesium	
0.07% Water Soluble Magnesium	

Derived from: Crab Scrap and Crab Shell
Nitrogen Derived from: Crab Shell

Crab Shell is an organic plant food rich in calcium and magnesium and naturally contains nutrients plants need. High calcium fertilizers have been shown to benefit bulbs and because crab shell is high in calcium, it will also help to inhibit blossom end rot. We recommend **Neptune's Harvest Crab Shell** for all your growing needs.

Crab Shell

Multi-Purpose Plant Food

2 - 3 - 0

NET WT. 12 lbs (5.44 kg)

Crab Shell

Suggested Application Rates

Apply in early spring as soon as soil can be worked. For perennial crops apply at the end of dormancy. Mix thoroughly with the soil or growing media, taking care not to apply in concentrated form directly to the roots. For trees and turf apply directly as a top dressing.

GARDENS:	3 lbs.per 100 square feet
ROW:	1 to 2 lbs. per 100 feet
TREES:	1 lb. per inch of tree diameter
COMPOST:	3 to 6 ounces per cubic foot
TURF:	10 lbs. per 1000 square feet
POTTING MIXES:	2% of total volume by weight
SEEDBED:	1 lb. per 100 square feet
BEDDING PLANTS:	1 Oz. per tray
BULBS:	1 tablespoon mixed in soil under bulb

**Caution: Keep out of reach of children.
 Do not take internally.**
